Compatibility.

This Wi-Fi Smart Plug is compatible with the Brookstone App, and with the devices using iOS 8.0 and above with Wi-Fi option, or Android 5.0 and above with Wi-Fi option.

This device does not currently support 5GHz Wi-Fi bands. Please see that your phone is connected to 2.4GHz Wi-Fi band of your router.
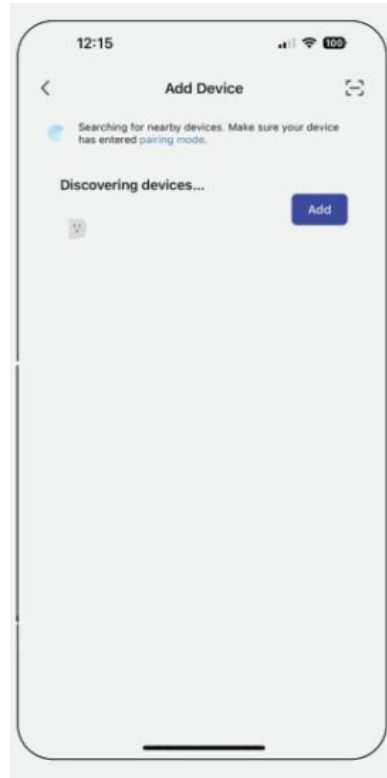

Operating Instructions

Search and download Brookstone App from Apple App Store or Google Play, or SCAN QR CODE, or VISIT: **https://brookstonesmarthome.com/brookstone-indoor-15a-smart-plug** Open the App, and it will ask you to register your device. Select your country, enter your email, get Verification Code and input your password to confirm. Insert the Smart Plug into the power outlet. Wait for 10-30 seconds until the Blue LED light on the ON/OFF button blinks continuously.

Wi-Fi Smart Plug parts and description

1. Smart Plug grounded receptacle
2. ON/OFF LED Illuminated Switch

Adding a new Wi-Fi Smart Plug to your network via App

Launch the "Brookstone" App and press "Add device" icon, the app will discover the device, click "Add", a window will show

to input your Wi-Fi information. To add an additional Smart Plug or other Brookstone deivces tap the plus (+) icon in the upper right corner. Repeat previous steps.

Troubleshooting Smart Plug connection

In the event that the Smart Plug does not automatically connected, please check that your phone is turned on and you gave permission for the App to access the Wi-Fi.

Make sure the Smart Plug LED indicator is flashing. If the Wi-Fi signal is not flashing, you will need to press and hold ON/OFF Switch. Make sure the Wi-Fi network is a 2.4GHz network, the device will not connect to a 5GHz network.

Test your Wi-Fi network connection with other devices such as your phone or computer to make sure it is operated properly. Use your phone to check range, it is recommended to have at least 2 signal bars showing for proper connection. Your Wi-Fi network password is case sensitive, make sure you are entering it correctly.

There could be a temporary issue with your Internet connection (e.g., service disruption). Please try again in a few minutes.
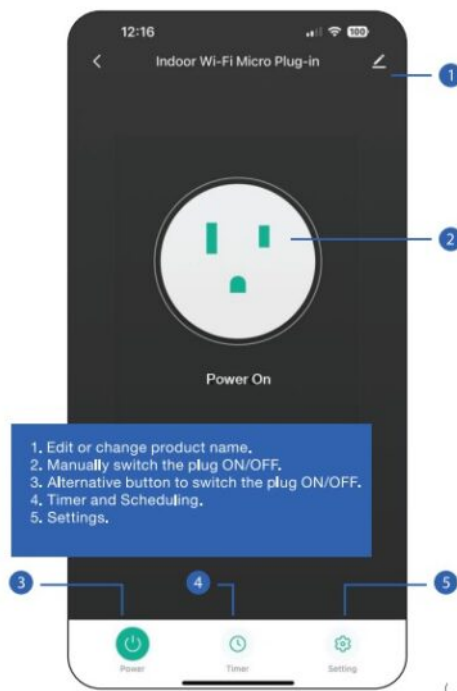

Make sure your Bluetooth and Wi-Fi router is turned ON. The Smart Plug may not have power, make sure the wall switch and breaker is in the ON position.

Make sure the Smart Plug is getting a good signal from your Wi-Fi router.

QUICK START GUIDE

AS EASY AS 1-2-3

1. Insert the Smart Plug into the power outlet.
2. Download and Install the Brookstone App.

    SCAN QR CODE OR VISIT: https://brookstonesmarthome.com/brookstone-indoor-15a-smart-plug

3. Open the App and add the Wi-Fi Smart Plug.

This device complies with part 15 of the FCC Rules.
Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This
equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
