BSP Y01 Mini Game Console

Function diagram

Instructions

1. This product is ergonomically designed and feels comfortable.
2. Bluetooth 5.0EDR/BLE connection is adopted, and the handle is connected to N-S and other hosts through

Bluetooth.

3. This handle is applicable to Switch, PS3/PS4, Android, iOS MFi/Apple Arcade, PC, Steam and other platforms.
4. ShootingPlus V3 APP is supported, which can be downloaded from various mobile application markets.
5. It supports Android and Hongmeng HID standard mode, and can play various game hall games that support HID standard mode.
6. MFi/AppleArcade games for iOS 13.0 and above are supported. MFi games can also be downloaded from Shanwan MFi app.
7. Support PS3/PS4/SWITCH game console Bluetooth connection to play games
8. Support Bluetooth connection of Windows 10 laptop and play X-Input games.
9. It supports USB cable and can play PC/PS3/SWITCH games.

Due to mobile phone system problems, some mobile phones may not support this device.

Due to irresistible factors such as software upgrade or source code change of the official game platform, some games cannot be connected with this product for operation, and our company will not be responsible. Our company reserves the right of final interpretation.

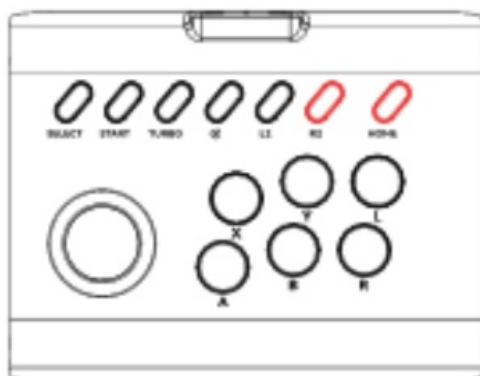

Electrical parameters

1. **Working voltage:** DC3.7V
2. **Working current:** <35mA
3. **Duration:** >10H
4. **Sleep current:** <5uA
5. **Charging voltage/current:** DC5V/500mA
6. **Bluetooth transmission distance:** <=8M
7. **Standby time:** 30 days at full power

Product instructions

SWITCH model:

On the SWITCH host, select the handle Controllers ->Change grip/order- ChangeGrip/order
Enter the SWITCH host pairing mode interface Press L+R on the controller. At the same time, press the "R2+HOME" key for 2 seconds to enter the SWITCH mode pairing, and the LED light will flash. If the pairing is successful, the "indicator 4" will be on for a long time.
It has been successfully connected. You can press the HOME key directly, and the LED will flash, and the connection will be automatically returned.

PS3/PS4/PS5 model

Connect the handle directly to the PS3/PS4/PS5 host with the TYPE-C USB data cable, press the “HOME key” to pair, and after the pairing is successful, the “indicator 1” of the shaking table will be on for a long time. It has been successfully connected. You can press the HOME key directly, and the LED will flash slowly and automatically connect back.

Be careful:

1. There is no touch pad function under PS4 and PS5 hosts;
2. Only PS4 games can be played under the PS5 console.
