bticino Two Wire Video Floor Distribution Block

1. 4 outputs (P1, P2, P3, P4) – handset BUS*

2. Input / output of riser** (IN-OUT) on the same pair of clamps

Up to 3 devices (audio handsets, video handsets and bells) can be installed on each stretch P1, P2, P3 and P4. Move to ON only in the last video door entry unit or door entry unit of the stretch of each apartment or each riser.

On the last floor distribution block the IN/OUT stretch must be ended with a handset
