- [1 INSTALLING BATTERIES IN THE TRANSMITTER:](#)
- [2 HOW TO CHARGE:](#)
- [3 HOW TO USE:](#)
- [4 Documents / Resources](#)

INSTALLING BATTERIES IN THE TRANSMITTER:

1. Open the battery compartment.
2. Insert 2 x 1.5V AA batteries with correct + and – polarities.
3. Close the cover.

Figure 1

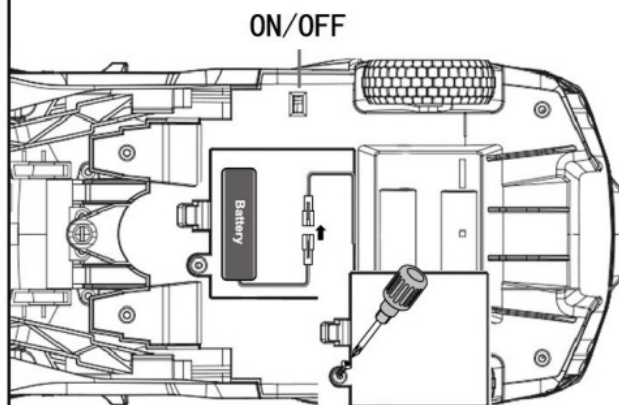

**REQUIRES 2 X 1.5V AA BATTERIES
(NOT INCLUDED)**

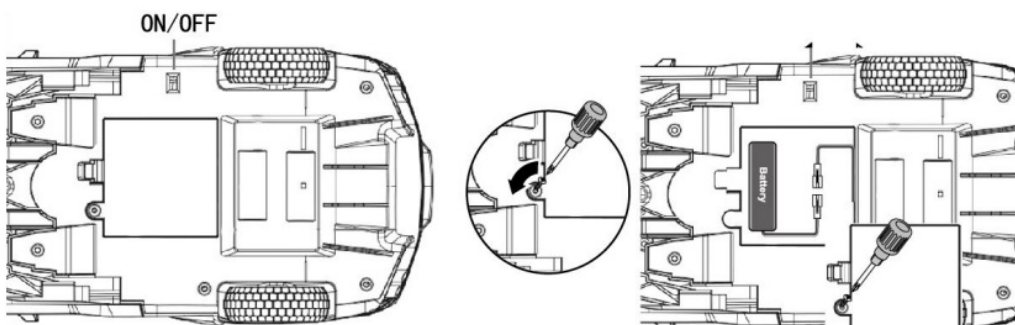

INSTALLING THE VEHICLE BATTERY:

1. Loosen the screw to open the battery cover.
2. As shown in Figure 2, remove the battery cover, connect the rechargeable battery with connector and close the battery cover.

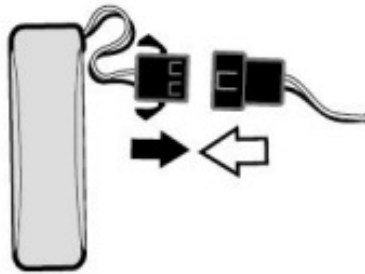

Figure 2

HOW TO CHARGE:

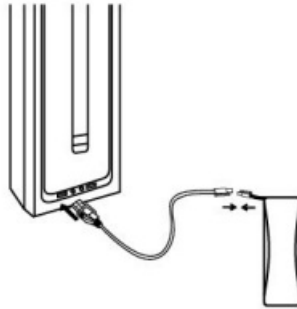

- A. Loosen the screw to open battery cover.
- B. Separate the rechargeable battery from connector.

C. Connect the USB charging cable with rechargeable ' battery first. (The battery connector will only fit in one way. do not force the connectors together), then plug the USB charging cable into a USB port. The red LED light on the USB charging cable will light up and will be solid when charging.

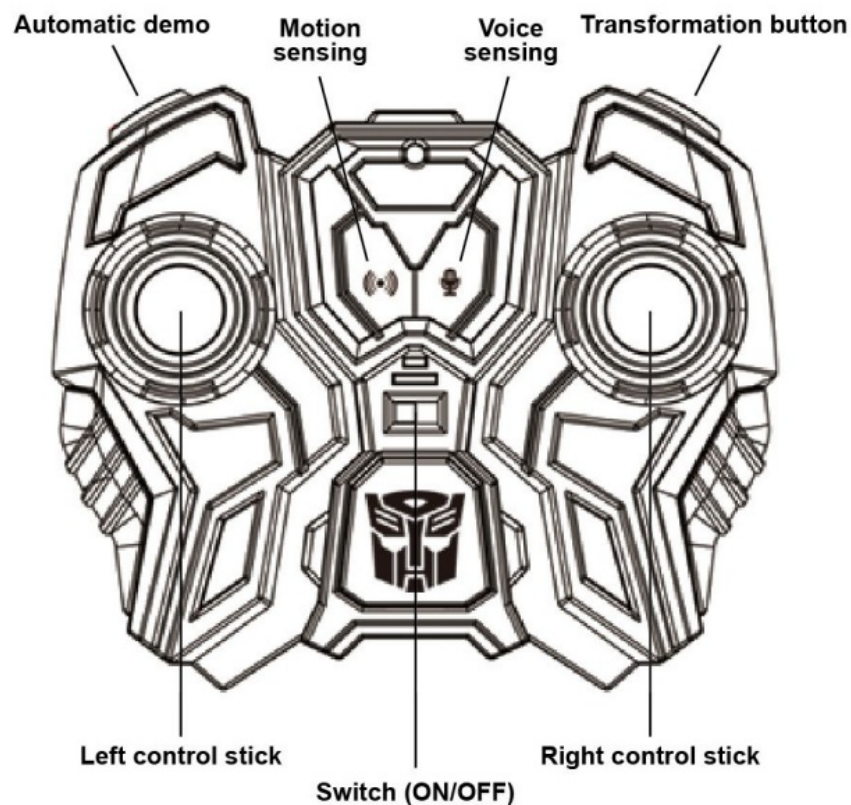

D. The green LED light will light up and will be solid after it has finished charging. Disconnect the USB charging cable from the USB port and then disconnect the rechargeable battery with USB charging cable.

Attention: Do not charge battery Immediately after each play. Let the battery cool down for a while.

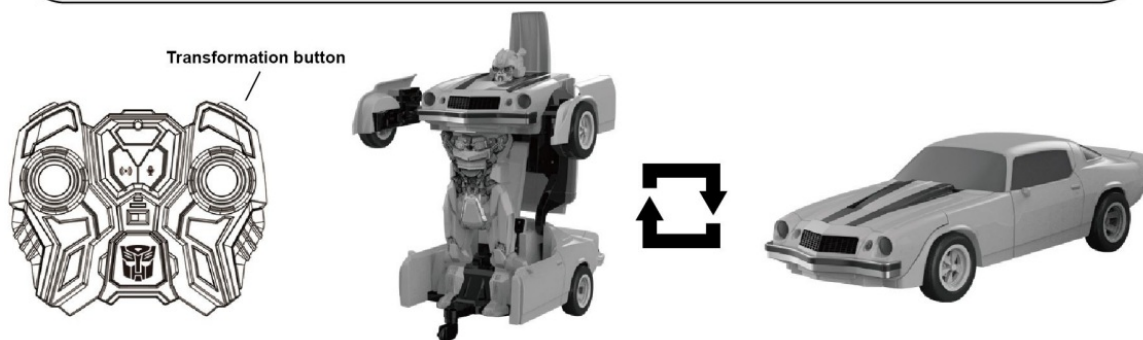

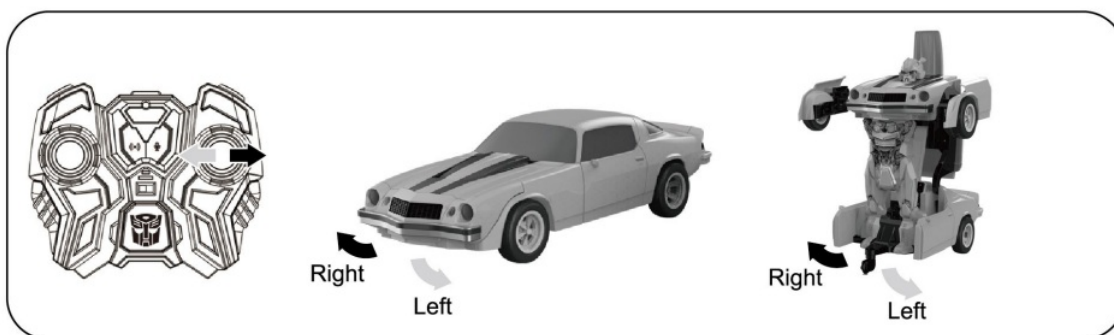

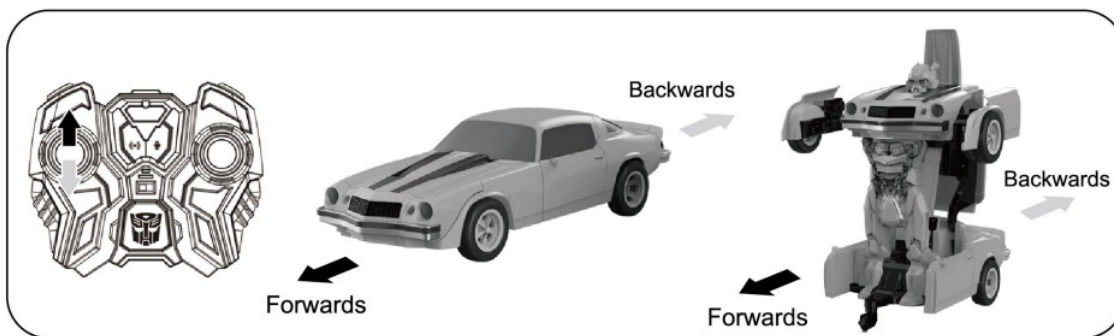

500mAh rechargeable lithium battery + USB charging cable (Included).

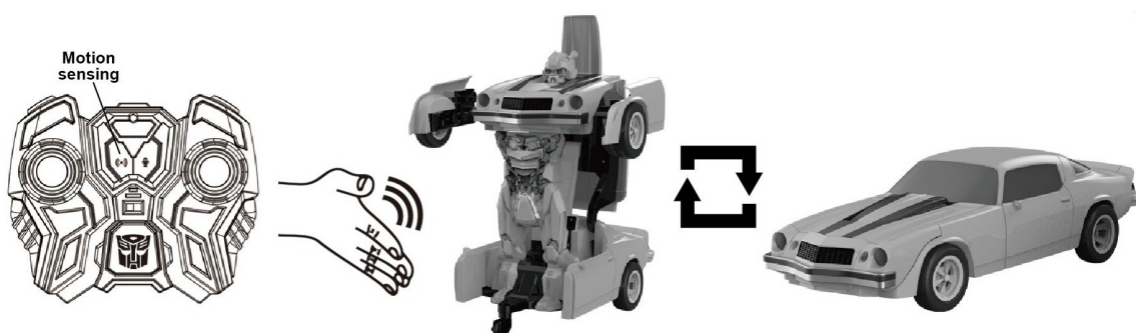

HOW TO USE:

1. Turn on the vehicle first and then turn on the transmitter.
2. Move the control stick of the transmitter to match the vehicle.
3. When the vehicle is functioning, that means they are matched.
4. If you have more than two vehicles, please pair one by one. When the second vehicle is pairing, please always keep the first vehicle and transmitter on.
5. Please turn off both the vehicle and transmitter and re-start all pairing processes if you are changing to play with another 2.4GHz transmitter.

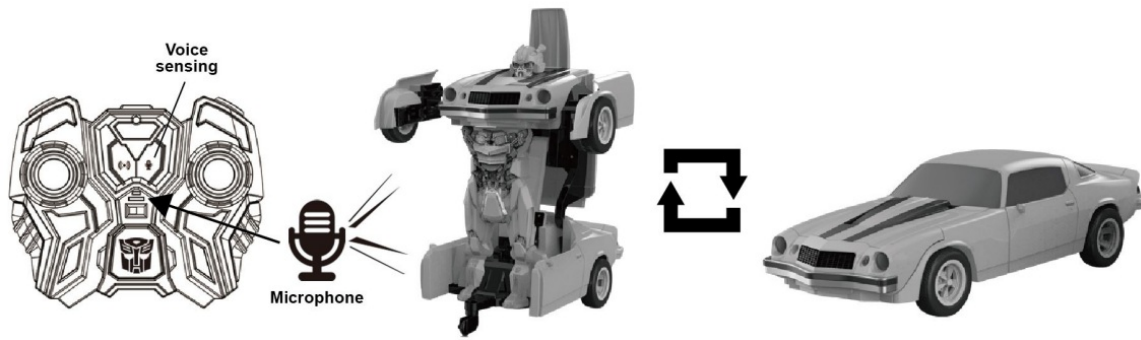

Press and hold the transformation button to transform the vehicle.

Press the motion sensing button, the indicator light on the remote control will flash and enter the motion

sensing mode, then you can put your hand close to the sensing area in front of the vehicle to transform it.

Press the voice sensing button, the indicator light on the remote control will flash and enter the voice sensing mode, and then you can say “transform” or something else into the microphone position to transform it.
