BUZZ TECH P101 Smart Watch

Product Information

This product is designed to comply with Part 15 of the FCC Rules, ensuring that it operates within the limits of a Class B digital device. It is important to note that any changes or modifications made to the product without the explicit approval of the party responsible for compliance may void the user's authority to operate the equipment.
Product Usage Instructions

To ensure proper usage and compliance with FCC regulations, please follow these guidelines:

1. Do not make any unauthorized changes or modifications to the equipment.
2. Keep the product in an environment where it is protected from excessive moisture, dust, and extreme temperatures.
3. Ensure that the product is connected to a power source that meets the specified requirements.
4. Avoid placing the product near sources of electromagnetic interference, such as other electronic devices or power lines.
5. When using the product, make sure not to cause harmful interference to other devices in the vicinity.
6. If you experience interference from other devices, try repositioning or relocating the product to minimize the impact.
7. If the product encounters interference that causes undesired operation, it must accept such interference and continue operating.

By following these instructions, you can ensure proper operation of the equipment while maintaining compliance with the FCC regulations.

    1. Main Menu

App Download

1. You can search for the "FitCloudPro" APP in the App Store / Google Play / App Store / Baidu Assistant to download.
2. Open the watch APP download interface, use the scan function, scan to download, or scan the QR code attached to download.

Note: After successful download and installation, please follow the interface prompts to register and log in for a better experience and use of the product.

Connect

- Pair with the watch using the "FitCloudPro" app on your phone.

How to connect

- Open APP >> "Device" >> "Add Device" >> "Start Search" >> Select the model and connect, and wait for a while to complete the pairing.

Note:

1. In order to connect the watch and the phone successfully, you need to turn on the Bluetooth of the phone to connect the device.
2. When using an Android phone, the user needs to grant the location permission and enable the location information function of the mobile phone system, otherwise, the device may not be searched.

Firmware Upgrade

The APP will prompt a new firmware version, and the user can enter the APP interface and select firmware upgrade. Upgrade

Notes:

1. The upgrade operation can only be performed when the battery of the watch reaches more than 60%.
2. During the upgrade process, the mobile phone interface will prompt the upgrade progress bar, please do not do any operation on the watch, wait until the mobile phone prompts that the upgrade is successful, and the watch automatically restarts before operating the watch.

Waterproof Instructions

- **Waterproof grade:** IP68
  The waterproof performance of this product is not permanent and may weaken with the passage of time.
- **Add**: It is not recommended to wear it in a hot bath. Water vapor is produced when washing with hot water. Its molecular radius is small, and it is easy to penetrate into the gap of the watch case. When the temperature drops, it gradually condenses into water droplets, which damages the circuit board of the watch, and then damages the watch.

Function Introduction

Smartwatch support:

- Bluetooth call, message notification, blood oxygen detection, heart rate detection, sleep detection, breathing exercise, exercise mode, remote control photography, music control, etc.

Basic Parameters

Host Size
45*45*10.7 mm

Battery Capacity
260 mAh

Bluetooth Version
BLE 5.2

Screen Resolution
466*466 px

Screen Size
1.96 inch

Sensor
Hx3605

Maintenance

It is recommended to wear and maintain according to the following three points:

1. Keep the product clean
2. Keep the product dry
3. Please wear the product correctly

For stains that are not easy to remove, it is recommended to scrub with alcohol.

Safety Instructions

1. Although smartwatches can detect real-time dynamic heart rates, they cannot be used for any medical purpose.
2. Do not disassemble or modify the equipment and accessories without authorization. Please contact after-sales service in case of equipment failure.
3. If the equipment is not used for a long time, please make sure to power it up once every three months.

FCC Rules

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. this device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.
