BWPVR 41632i UHD Video Recorder

Specifications

- 16 Channel Pentabrid video recorder
- **Network:** 1x RJ-45, 16x BNC

- **Video Resolution Support:** AHD/CVI/TVI: max. 8MP (7fps), max.6MP (10fps),@2MP(25fps) (IP: H.265(+)/H.264(+)/MJPEG/MPEG4)
- **Max Bandwidth:** 128 Mbps in, 128 Mbps rec, 128 Mbps out
- **USB Ports:** 4 / 1 (Cinch)
- **Max Users:** 16 / 3
- **Storage:** 2x SATA III 3.5 HDD max. 2x 16TB*
- **Power Consumption:** 16Kbps – 20 Mbps
- Operating Temperature

Product Usage Instructions

Getting Started

1. Connect the mouse, monitor, network cable, and camera(s) with the recorder.
2. Connect the device to power using the supplied power adapter.
3. Switch on the device using the power button on the backside of the recorder.
4. The Power LED indicator on the recorder front panel will light up.
5. Wait for the boot process to finish.
6. Follow the Setup Wizard for initial setup.
7. Create a username and password for the first administrator.
8. Add your email address for password reset purposes.

FAQ

How many channels does the video recorder support?

The video recorder supports up to 16 channels for input.

What is the maximum resolution supported by the video recorder?

The video recorder supports a maximum resolution of 8MP for AHD/CVI/TVI cameras.

How many USB ports does the video recorder have?

The video recorder has a total of 4 USB ports, with one of them being a Cinch port.

Items included

Items included in the delivery:

- 1x Recorder
- 1x Mouse
- 1x Power cable/adaptor
- 1x Quick installation guide

Special features

- H.265(+)/H.264(+) AI dual-stream video compression
- Supports Full-channel AI-Coding

- Supports HDCVI/AHD/TVI/CVBS/IP video inputs
- Max 32 channels IP camera inputs, each channel up to 8MP; Max 128 Mbps incoming bandwidth
- Up to 2 channel video stream (analog channel) Perimeter Protection with each up to 10 IVS rules
- Up to 16 channels video stream (analog channel) AI motion detection
- Up to 2 channel video stream (analog channel) human face detection
- Up to 2 channel video stream (analog channel) human face recognition with integrated database
- IoT & POS functionalities

Technical drawing

All dimensions in mm. Drawings not true to scale. We reserve the right to change technical specifications including slight variation in size and weight, technical changes, errors excepted.

Interface

NR.	DESCRIPTION
1	Ground
2	Alarm Input/Output
3	Video input (BNC)
4	Audio Out
5	HDMI monitor output
6	Audio In

7	USB Port
8	RJ45 Network connection
9	RS-485 Port
10	=12Vdc Power input
11	VGA monitor output
12	Power Switch

Technical specifications

Model	BWPVR-41632i
Type	16 Channel Pentabrid video recorder
Video inputs	1x RJ-45, 16x BNC
Supported standards	AHD/CVI/TVI: max. 8MP (7fs) AHD/CVI/TVI: max. 6MP (10fs) AHD/CVI/TVI: @ 2MP (25fps) (IP: H.265(+)/H.264(+)/MJPEG/MPEG4)
Max. bandwidth	128 Mbps in, 128 Mbps rec, 128 Mbps out
Audio input/output	4 / 1 (Cinch)
Alarm input/output	16 / 3
Number of internal HDD supported	2x SATA III 3.5" HDD max. 2x 16TB *
Operating system	Linux
Monitor outputs	1x HDMI (UHD), 1x VGA (FullHD)
Monitor resolution	3840×2160 (HDMI), 1920× 1080, 1280× 1024, 1280× 720, 1024× 768
Display split	1/4/8/9/16 (/32-IP)
Displays	Camera title, time, video loss, camera lock, motion detection, recording
Max. recording resolution	8MP/6MP/5MP/4MP/3MP/1080P/ 720P/..
Bit Rate pro CH / per CH	16Kbps – 20 Mbps
Max. bandwidth incoming	128Mbps (IP)
Recording mode	Manual , schedule (regular, continuous), motion detection, stop
BNC AI	Face detection; face recognition; perimeter protection; AI Motion
network	1x RJ-45 Port (10/100/1000 Mbit)
Max. users	128
USB Ports	1x USB 2.0, 1x USB 3.0
Voltage	Device: =12Vdc/5A Power Adapter: AC 100~240V, 50/60 Hz
Power consumption	< 15W (ohne Festplatte / without HDD)
Operating temperature	-10° bis/to +55°C
Dimensions	1U, 375.0 mm × 289.0 mm × 53.0 mm
Weight	Ca. 1,8 kg without HDD)

Subject to technical changes. Errors excepted.

Getting started

- Connect the mouse, the monitor, the network cable and the camera(s) with the recorder. Connect the device to power by using the power adapter supplied with these devices.
- Use on/off power button on the recorder backside to switch device on.
- The Power LED indicator on the recorder front panel lights up.
- Wait until boot process is finished
- The Setup Wizard helps you during first setup.
- Enter the first administrator's user name and password.
- Add also your mail-address to be able to reset the device in case of lost password.

Note:

Add more user and configure their rights at:
Setting ► System ► Account ► User

- You are now logged-in and you have access to the various functions.
- Right-click into the live image to call-up and close the quick start menu including the main menu.

Cyber security information

The BURG-GUARD GmbH follows the industry-standard practice of dealing with found product weaknesses and product software in order to minimize the risk for customers. Unfortunately, for complete security of products, software and services that are created and verified to the best of our knowledge and belief, complete freedom from errors that can't be overcome by potentially malicious attackers can't be fully guaranteed. This does not only apply to devices of BURG-GUARD devices, but rather to the generality of networkable devices. BURG-GUARD can guarantee that we try to reduce the risk to a minimum.

Fixing vulnerabilities is an ongoing process because there are always new vulnerabilities, e.g. in network protocols and services, and can't be completely excluded.

If you have any questions, please contact camera-service@burg.biz

GDPR information

When using video security systems, personal data is collected in an automated manner, processed and used. Such data are under the protection of the GDPR, which is direct as an EU regulation. The operator of the system is responsible for the operation and processing of the data. When installing the video security system, appropriate technical and organizational measures must be taken to safeguard the personal rights of those affected.

App remote access

Using the "Burg Cam" App, you can call-up and control the device by your smartphone or tablet.

General safety precautions and safety instructions

- Before operating the appliance, please read this manual carefully and retain it for further reference.
- Before cleaning the appliance, it has to be switched off and unplugged from the power outlet. Wipe the appliance with a soft damp cloth.
Do not use harsh cleansers or aerosols for cleaning. The type label may not be replaced.
- Do not use attachments unless recommended by the manufacturer as they may affect the functionality of the appliance and result in the risk of fire, electric shock or injury.
- The appliance has to be installed in a safe and stable location which is able to carry the weight of the appliance. Quick stops, excessive force, and uneven surfaces may cause the appliance to fall causing serious injury to persons and damage to objects.
- Openings in the appliance, if any, are provided for ventilation to ensure reliable operation of the appliance and to protect it from overheating. These openings must not be covered or blocked. Please make sure that the appliance does not overheat.
- The appliance should only be operated from the type of power source indicated on the marking label. If you are not sure of the type of power supplied at the installation location, please contact your local dealer.
- An appliance which is powered through a polarized plug (a plug with one blade wider than the other) will fit into the power outlet only one way. This is a safety feature. If you are unable to insert the plug into the outlet, try reversing the plug. Do not defeat the safety purpose of the polarized plug.
- If the appliance is powered through a grounding-type plug, the plug will only fit into a grounding-type power outlet. This is a safety feature. If your outlet does not have the grounding plug receptacle, contact your local electrician.

- Route power cords and cables in a manner to protect them from damage by being walked on or pinched by items placed upon or against them.
- For protection of the appliance during a lightning storm or when it is left unattended and unused for a longer period, unplug the appliance from the wall outlet. Disconnect any antennas or cable systems that may be connected to the appliance. This will prevent damage to the appliance due to lightning or power-line surges.
- Do not overload wall outlets and extension cords as this can result in a risk of fire or electric shock.
- Never insert items into the openings of the appliance. They may touch parts under electric current which may cause an electric shock.
- Never pour any liquids over the appliance.
- In case of any operating interruption or a complete operating failure please switch off the appliance and disconnect it from the wall outlet. Never attempt to service or repair the appliance yourself, as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.
- When replacement parts are required, be sure that the service technician uses replacement parts specified by the manufacturer or that have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock or other hazards.
- Upon completion of any service or repairs to the appliance, ask the service technician to perform safety checks to verify that the appliance is in proper operating condition.
- The appliance must only be installed by qualified service personnel and has to comply with local specifications and regulations, e.g. GDPR.
- At the installation site, the camera has to be adjusted to the given light conditions (see OSD).
- Please respect the local legal regulations on waste if you need to dispose of discarded appliances.

This symbol means that electrical appliances need to be disposed of properly and not simply with unsorted household refuse. Please respect local regulations on waste disposal.

CE compliance

Attention: Any changes or modifications to this appliance which have not been explicitly approved of by the respective regulatory authority, may lead to a prohibition of usage of this appliance.

This appliance complies with the CE guidelines.

GNU GPL License note

Certain open source components are licensed pursuant to GNU General Public License. This establishes that the customers have the right to acquire, modify and redistribute the source code of said software in accordance with the terms of the GNU General Public License or Lesser General Public License.

A printed copy of the license text GPL V2 is included in this product shipment.

The license text can also be downloaded from our homepage at www.BURG-GUARD.com/Download/GNU_GPL/GNU_GPL_V2.pdf

You as well as any other third party may request to have access to the complete and machine-readable open source code for the GPLv2 licensed software. The source code can be provided as free-of-charge download link or, alternatively, on a common data storage device (at cost price). This offer is valid for up to three years after you

downloaded the software or after the product has been shipped to you.

Please send your request to the following address:

BURG-GUARD GMBH Wormgermühle 58540 Meinerzhagen Germany

Tel: +49 2358 905 490

Fax: +49 2358 905 4490

E-Mail: camera-service@burg.bi

We can't give support or guarantee for squeaky-cleanliness of source codes. The source codes are only a part of whole software.

GNU General Public License

Version 2, June 1991

This page mirrors the text from <http://www.gnu.org/licenses/gpl-2.0.html>.

Copyright © 1989, 1991 Free Software Foundation, Inc.

51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software—to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things. To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it. For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights. We protect your rights with two steps:

1. copyright the software, and
2. offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To

prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all. The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.
You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.
2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:
 1. You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.
 2. You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.
 3. If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work

based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:
 1. Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
 2. Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
 3. Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.
4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.
5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.
6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.
7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from

distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and “any later version”, you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM “AS IS” WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED

INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the “copyright” line and a pointer to where the full notice is found.

[one line to give the program’s name and an idea of what it does.] Copyright (C) [yyyy] [name of author]

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA.

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this when it starts in an interactive mode:

Gnomovision version 69, Copyright (C) [year] [name of author]

Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type ‘show w’. This is free software, and you are welcome to redistribute it under certain conditions; type ‘show c’ for details.

The hypothetical commands ‘show w’ and ‘show c’ should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than ‘show w’ and ‘show c’; they could even be mouse-clicks or menu items—whatever suits your program.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a “copyright disclaimer” for the program, if necessary. Here is a sample; alter the names: Yoyodyne, Inc., hereby disclaims all copyright interest in the program ‘Gnomovision’ (which makes passes at compilers) written by James Hacker.
[signature of Ty Coon], 1 April 1989

Ty Coon, President of Vice

This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Lesser General Public License instead of this License. Copyright notice above.

51 Franklin Street, Fifth Floor, Boston, MA 02110, USA

Verbatim copying and distribution of this entire article is permitted in any medium without royalty provided this notice is preserved.

Notes

Please be aware that electrical and electronic equipment and batteries shall not be disposed of as household waste, but rather collected separately.

Please obtain information on the collecting points for electrical waste from the responsible authority of your municipality.

BURG-GUARD GmbH hereby declares that this device complies with Directive 2014/35/EU Low Voltage, 2014/53/EU, (EMC), 2011/65/EU (RoHS).

The full text of the EU Declaration of Conformity can be found on www.burg.biz. If you have technical questions about this device, please read the detailed user manual and the FAQ sheet which you will find on the following website: www.burg.biz. If, however, you still have questions, please send an e-mail to: camera-service@burg.biz
