Interface diagram

1. Multifuntion Botton(Power/Play/Pause).
2. Aux in/out.
3. Transmitter and Receiver Swiches.
4. microphone
5. Indicator Light.
6. 5V/1A Charging port.

How To Use

Receiver Mode

1. Use the micro USB cable to charge before use;
2. Connect the C28 to your audio device using the AUX cable;
3. Change the switch button to position RX;
4. Turn on the device(Long press in the multifunction button) then the blue light will flash quickly, indicating that is ready for pairing;
5. Find C28 in the wireless search of your phone and chose to pair.

Transmitter Mode

1. Use the micro USB cable to charge before use;
2. Connect the C28 to your audio device using the AUX cable;
3. Change the switch button to position TX;
4. Turn on the device(Long press in the multifunction button) then the red light will flash quickly, indicating that is

ready for pairing;

5. Turn on the device you want to connect and the C28 will automatically connect. When the connection is successful the wireless indicator will illuminate red.

Precautions

1. Our adapter is only a converter, which sound quality depends on the sound effect of your own equipment and you can change your device then try it again.
2. If you have any questions about our products, please contact us with the after-sales mailbox directly. We will reply in time to help you resolve and satisfy you. You can believe that we'd like to address any issues or concerns you have.
