CALIBER CL-UC SET Counter Display

Product Information

The product is a 10x charging cable with different connectors for various devices. It comes in three variants:

- **CL-UC:** USB to Type-C connector
- **CL-UL:** USB to Lightning connector
- **CL-UM:** USB to Micro-USB connector

The cable also features a high-quality nylon sleeve for durability. The dimensions of the cable are as follows:

- **Length:** 280 mm
- **Width:** 205 mm
- **Height:** 210 mm

Product Usage Instructions

To use the charging cable, follow these steps:

For CL-UC (USB to Type-C) variant:

1. Connect the USB end of the cable to a power source or a compatible device.
2. Connect the Type-C end of the cable to your Type-C enabled device.

For CL-UL (USB to Lightning) variant:

1. Connect the USB end of the cable to a power source or a compatible device.
2. Connect the Lightning end of the cable to your Lightning-enabled device.

For CL-UM (USB to Micro-USB) variant:

1. Connect the USB end of the cable to a power source or a compatible device.
2. Connect the Micro-USB end of the cable to your Micro-USB enabled device.

Note: Ensure that you are using the correct variant of the cable for your device to ensure compatibility and proper charging.
