**RX-DB Lazer Point**

### STEP 1

- Ensure power is turned off, or removed from board
- Carefully press in two tabs on one end of plastic case
- Pry case lid up and off circuit board. Set aside

### STEP 2

- Remove daughterboard from packaging, and carefully insert it into either one of the two headers on main circuit board
- Ensure all 9 pins are properly seated into header, and daughterboard is straight up and down (not bent over)

### STEP3

- Repeat for additional daughterboard, if desired
- Using case lid as a guide carefully route antenna wires to fit into slots on lid
- Re-install lid making sure wires are routed to avoid damage
- lid should snap onto tabs on ends

### CAUTION !

Do not install or remove  
Daughterboard(s) with unit powered.  
Remove power first
