## IMPORTANT ASSEMBLY STEPS

When encountering this information icon during assembly, please refer to the relevant assembly step for important additional comments.

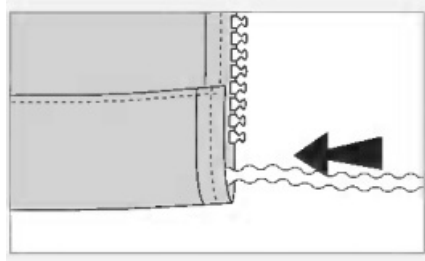

**Step 1-4:** Do not attach hooks in the area marked with an X (see round view).

**Step 7-8:** Tighten the nuts when the curtain stretched positioned around the post (see view b).

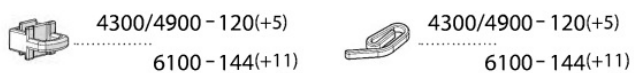

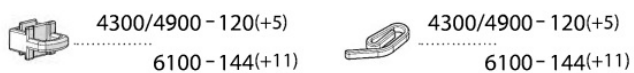

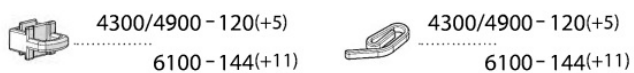

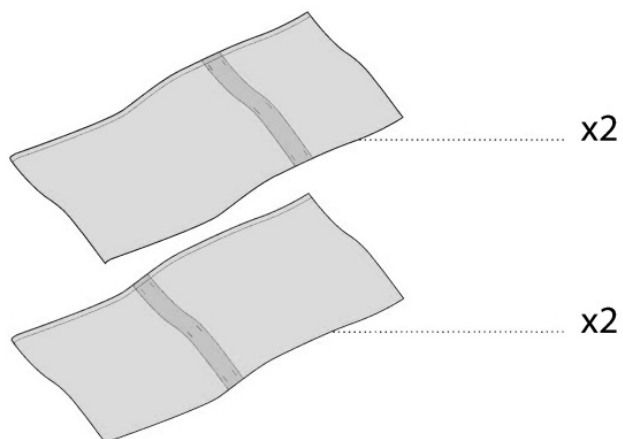

**Step 9:** In assembling together curtain and netting, there will be excess strips (unused).

- When closed, the curtain / netting has to be stretched in order to properly maintain them.
- When opened, the curtain / netting should be tied to the poles with the built-in straps.
- In windy weather conditions, curtains need be pulled towards the post, as shown in step 10.

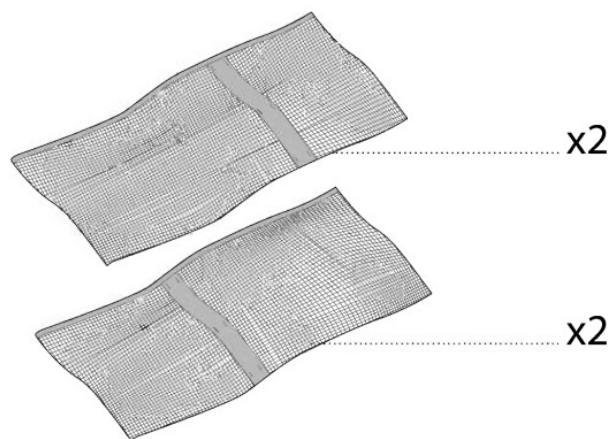

**Optional:** It is possible to thread a curtain weight chain at the bottom.
