Caware AP2 Series Filter

Product Information

The AP2 Series Quick Connect Filter Cartridge by Particle Chemical is a commercial solution for efficient water filtration. It features Caware CB Technology Inside, which ensures high efficiency, low pressure drop, and a long lifespan. This cartridge is designed to simplify installation space and offers quick and easy replacement.

It is equipped with multiple and customized media options to effectively remove various contaminants found in tap water. All elements, media, and materials used in this cartridge comply with NSF and FDA requirements, ensuring safety and quality.

Product Usage Instructions

To use the AP2 Series Quick Connect Filter Cartridge:

1. Ensure that the water supply is turned off before installation.
2. Identify the appropriate cartridge type based on your water filtration needs:
 - 095AP2 – Activated carbon block cartridge
 - CB-SS – Activated carbon block cartridge with scale inhibitor
3. Measure the dimensions of the cartridge: OD (Outer Diameter) is 1.75 inches (45mm), and L (Length) is 9.5 inches (240mm).
4. Remove the old cartridge by disconnecting it from the water supply line. Dispose of it properly according to local regulations.
5. Connect the new AP2 Series Quick Connect Filter Cartridge to the water supply line using the quick connect mechanism.

6. Ensure a secure connection by checking for any leaks.
7. Turn on the water supply and check for proper water flow.
8. Regularly monitor the cartridge's lifespan and replace it when necessary to maintain optimal filtration performance.

Quick Connect Filter Cartridge

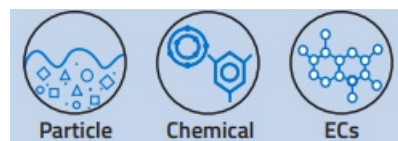

Caware CB Technology Inside

Expert Users

Solutions

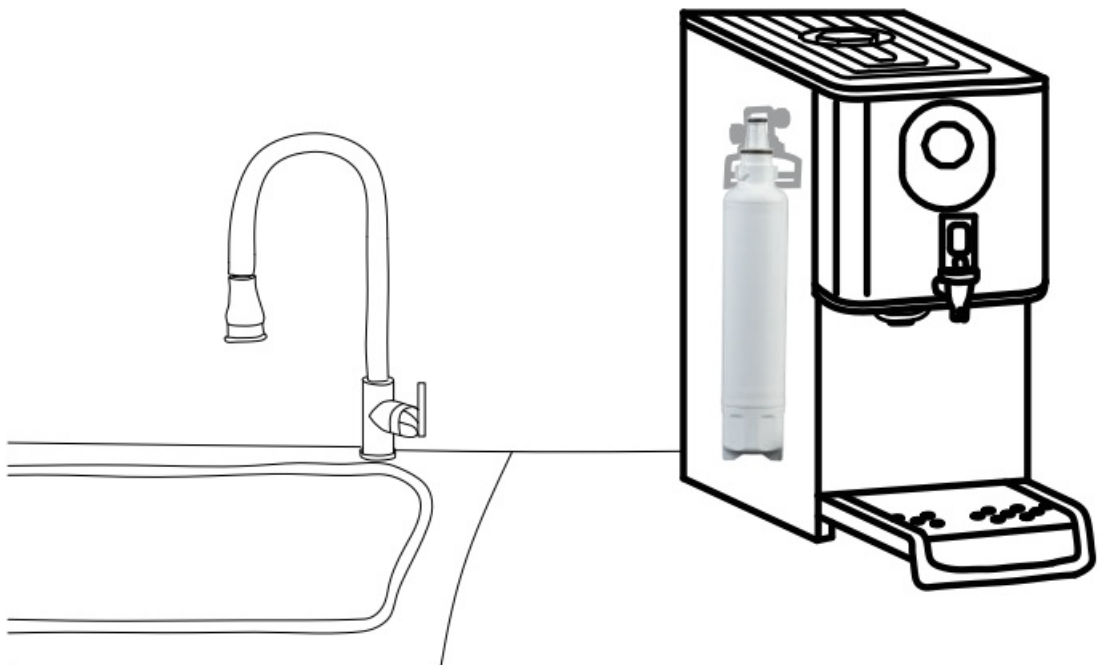

- Particle
- Chemical
- ECs

Benefits

- High efficiency, low pressure drop, and long life span to simplify installation space.
- Quick and easy installation for friendly replacement.
- Multiple and customized media available upon request to challenge varieties contaminants in tap water.
- All elements, media, and materials complied with NSF & FDA requirement.

Utility

Specification

Type	Dimension (OD x L)	Applicable Claiming Index
095AP2	1.75" x 9.5" (45 x 240mm)	CB – Activated carbon block CB – SS – Activated carbon block with scale inhibitor

- Adaptable to 3M® AP2 series
- Product Data Sheets are available upon request
- Caware labeling & private label are available
