Cancel Continue

Step 3

Ensure your new account is protected

Step 4

Choose your preferred option to receive a code to set up your multi-factor authentication (MFA)

Protect your account

To ensure your account is secure, we will send you a verification code each time you log in. This is called multi-factor authentication (MFA).

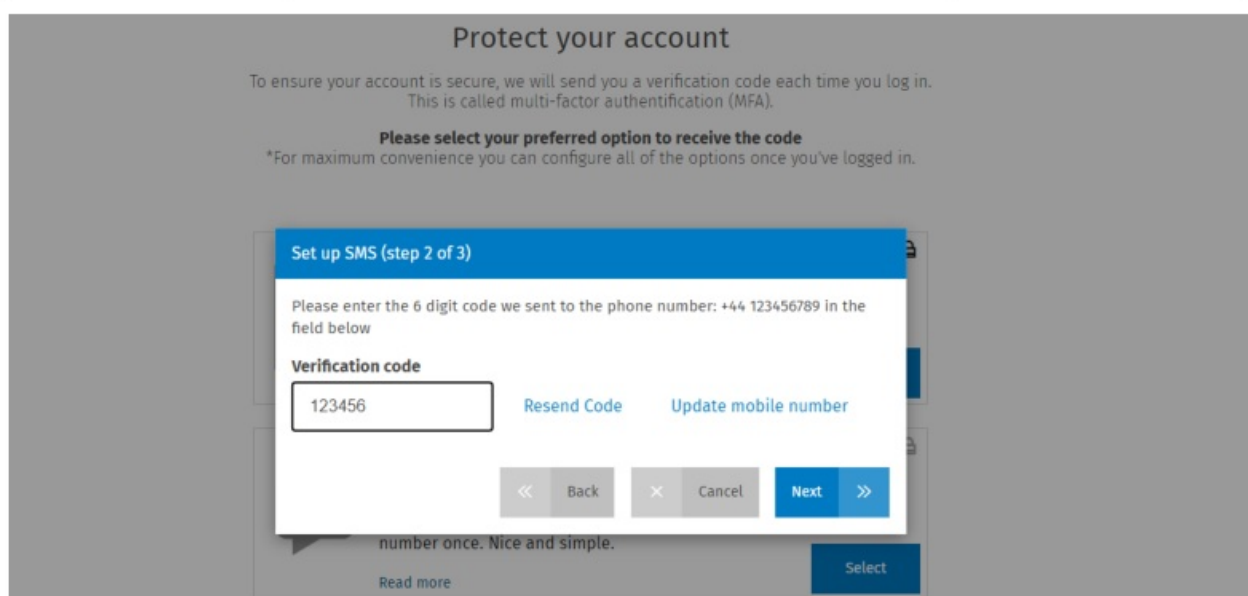

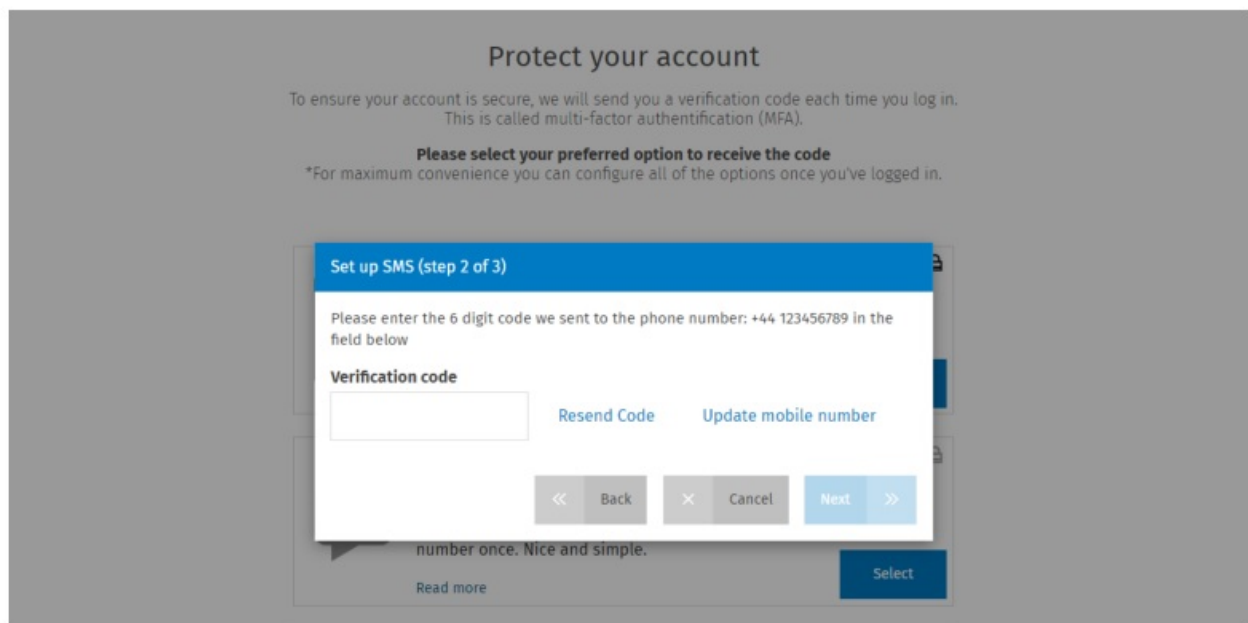

Please select your preferred option to receive the code

*For maximum convenience you can configure all of the options once you've logged in.

	Authentication application Use a mobile app to authenticate This is the safest method to authenticate. You can use our app or another compatible app already installed. Read more	    
	SMS Receive authentication codes via SMS All you need to do is provide your mobile phone number once. Nice and simple. Read more	    
	Email Receive authentication codes to my email It's safer to provide an address different to the one you use to log in to this application. Read more	    

Step 5

Enter the 6-digit code you received to set up your multi-factor authentication (MFA)

Step 6

Finish setting up the multi-factor authentication (MFA)

Protect your account

To ensure your account is secure, we will send you a verification code each time you log in.
This is called multi-factor authentication (MFA).

Please select your preferred option to receive the code

Set up SMS (step 3 of 3)

Recovery codes can be used to access your account in the event you are unable to receive the authentication code using your chosen method.

Save

These recovery codes are unique to you and should be treated with the same level of security as you would your password!

If you need to change the recovery codes for your account then please go to the security area of your account and select the option to show recovery codes.

Select

Step 7

Verify your account to securely proceed to CCH OneClick

Account verification

For your security you need to enter an authentication code before you can proceed to your application.

We have sent you a text message to +44 ***-***-**03 with a verification code.

The authentication code is 6 digits long.

Can't get the authentication code? [Click here to use a recovery code](#)

☐

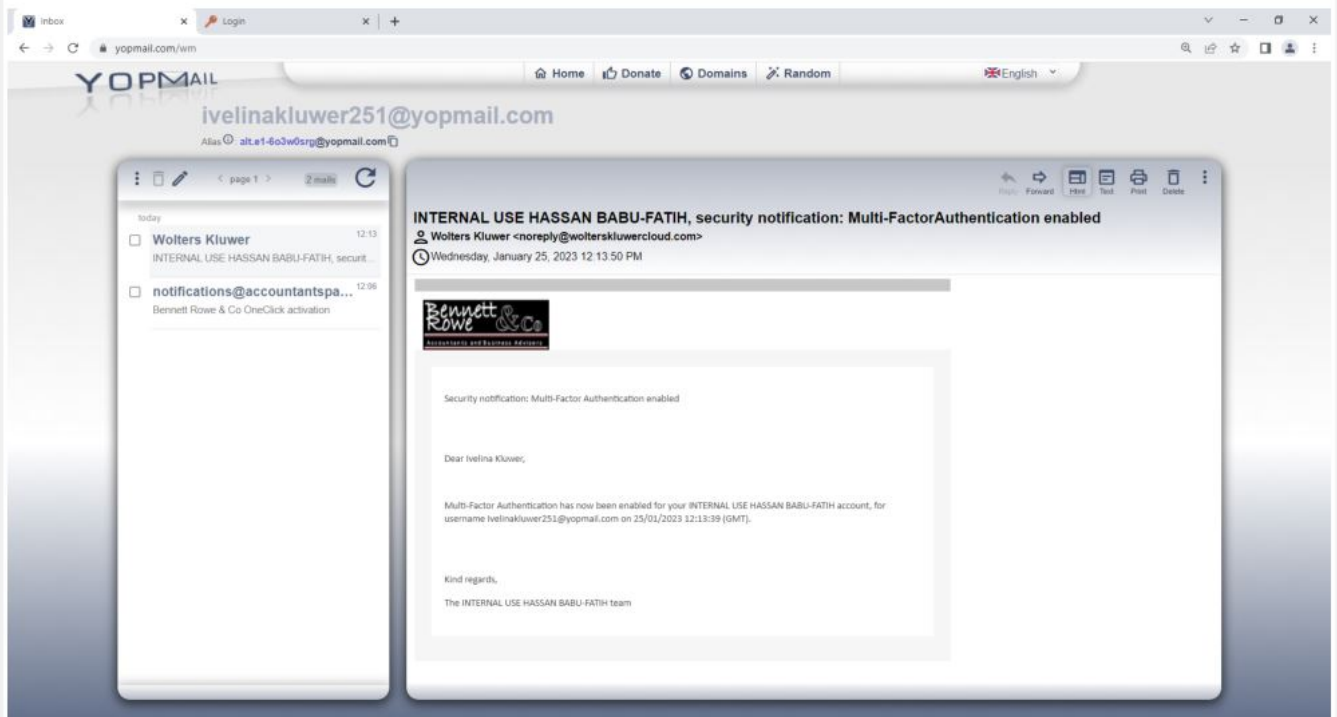

Remember me

Continue

Step 8

Check your inbox for a multi-factor authentication notification email from Wolters Kluwer

Your account is now securely set up

Please ensure you access CCH OneClick by using the fresh link you'll receive in your future email notifications and do not rely on previously saved links.
