Pairing Steps

- Step 1.

  Please install the iPad into the protective cover, and pull out the TYPE-C connector hidden on the right side of the case.

- Step 2.

  Plug the TYPE-C connector into the iPad firmly.

- Step 3.

  The blue sign appear on top right (beside battery) and the keyboard lights up.

- Step 4.

 The keyboard is automatically connected.

Note:

1. There is a power switch on the back of the cover. Please make sure it is on.
2. When you stop using the keyboard, please turn off the power switch on the back of the cover. In order to prevent the keyboard power from draining.
3. When you are not using the keyboard for a few seconds, the backlight will turn off to protect the battery.

Remark:

1. When you do not unplug the TYPE-C connector, you just need to turn the power on and off and use it.
2. If you don't turn on the power switch, the keyboard will stop working
3. If the keyboard light is off, it doesn't stop working, please make sure that the backlight switch on.

Frequently Answer Question

- Q: Why the blue sign disappear in just a few seconds?

  A: When you insert TYPE-C Connector, the blue sign on the top right (beside the battery) on the keyboard will flash for a few seconds and disappear, it does not mean that the keyboard is disconnected.
- Q: How to set up if I want ta use the Wireless mouse?

  A: 1. Accessibility – Touch – AssistiveTouch – Mouse Keys – Close "Mouse Keys" and "Option Key Toggle"

  2. Accessibility – Touch – AssistiveTouch – Close "Show onscreen keyboard" and "Always show Menu"
- Q: The keyboard lighting comes on randomly when the lid is closed.

  A: The back of the cover has a power switch, you need to turn off it to save power and protect your iPad.
- Q: How do I set up if I want to enter Spanish?

  A: This keyboard is an English version, if you change another language to use this keyboard, it will show some keys do not correspond when you type. Please Go to your iPad setting – General – Keyboard. Choose Hardware Keyboard, you can see the language.

Operation Instruction

1. In the 30 seconds, the keyboard does not work, the backlight will automatically go out to enter sleep mode, and then press any key to automatically wake up.
2. Connect to the TYPE-(external power cable with PD fast charge to achieve PD fast charge function
3. Access to 4K cable for 4K audio and video data output, flat audio screen defaults to priority 4K port output, other ports have no audio output.
4. Disconnect the 4K cable, the audio and video playback will automatically pause, and you need to manually restart the play.
5. Access to the headphone jack, the audio screen defaults to output from the headphone port, disconnects the

headphone cable, the audio playback is automatically paused, and you need to manually restart the play.

6. 2 standard USB2.0 interfaces for external data transmission.
7. When you plug in 4K port, the display must have a speaker for the sound to be transmitted.
