Operation instructions

Connect:

1. Install device first, and then fold front cover for standing the device.
2. Dial ON/OFF button on right direction for opening keyboard, press "Fn + C" into wireless matching condition.
(The wireless indicator light blinks slowly.)
3. Open Wireless on device, search keyboard name (Wireless Keyboard) for matching device to Keyboard (or pair without a password).
4. Input the numbers which shows on the device, and then press "Enter" key for finishing match.
5. The Keyboard will automatically sleep if you do not use it within 10 minutes. Then press any key and wait 2-3 seconds, the device will automatically return the last time you read.

Note: The effective time of pairing status is about 2 minutes, and the indicator light will go out after successful connection.

Disconnect: Clear the pairing information on your device or turn off the keyboard power directly to break the connection.

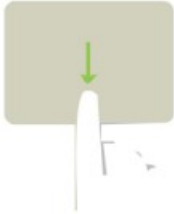

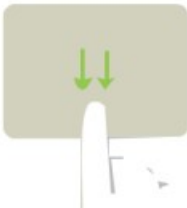

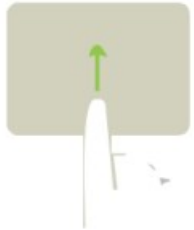

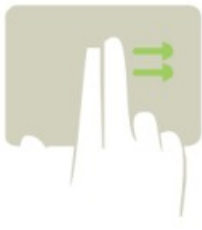

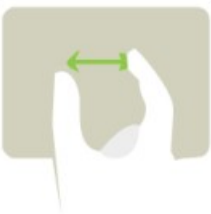

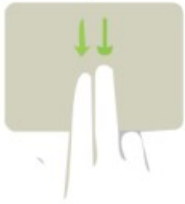

Attentions

1. Please charge the keyboard in time when power indicator light turns red.
2. The power indicator light is red in charging status, and it will become green when the keyboard is fully charged.
3. If there is no operation in 10 minutes, the keyboard will go to sleep mode, please press any key for 2-3 seconds to wake it up.
4. Do not squeeze, twist or pat on the keyboard. And clean it with a soft cloth.
5. Keep it away from liquid, fire, and magnetic field.
6. Please do not connect multiple wireless keyboards at the same time, if necessary, please connect one by one.

Common connecting problems and solutions

1. Make sure you have turned on the power and the keyboard battery are enough.
2. Make sure the keyboard is within the effective working distance.
3. Make sure the relative wireless function is open.
4. Make sure the keyboard has paired with the device.
5. Remove the device pairing record and turn off the wireless function and rematch.
