Choetech XCC-1036 USB-C to USB-C Cable

Product Information

The XCC-1036 is a USB-C to USB-C cable that supports Qualcomm Quick Charge and USB Power Delivery Charge. It has two USB-C interfaces and can output up to 48V, 5A, and 240W (Max). The cable is made of braided material and comes with an aluminum alloy connector. It is 2 meters long and is compatible with Thunderbolt 3 ports. However, it is not a Thunderbolt 3 cable and cannot output video. The package includes one USB-C to USB-C cable and one user manual.

Product Usage Instructions

1. Before first use, read the user manual carefully and pay particular attention to the safety instructions.
2. To ensure the charging speed of your device, use the original USB-C port wall charger or a high-quality charger that supports USB PD fast charging.
3. This cable is for charging and data transfer only. It cannot output video.
4. Keep the cable away from fire, humidity, or hot environments.
5. Do not attempt to disassemble, modify, or fix the device by yourself.
6. Cut off the power supply before wiping the cable.

Dear customer,
Thank you for purchasing our product. Please read the following instructions carefully before first use and keep this user manual for future reference. Pay particular attention to the safety instructions. If you have any questions or comments about the device, please contact the customer line.
