CISCO Table Microphone Pro

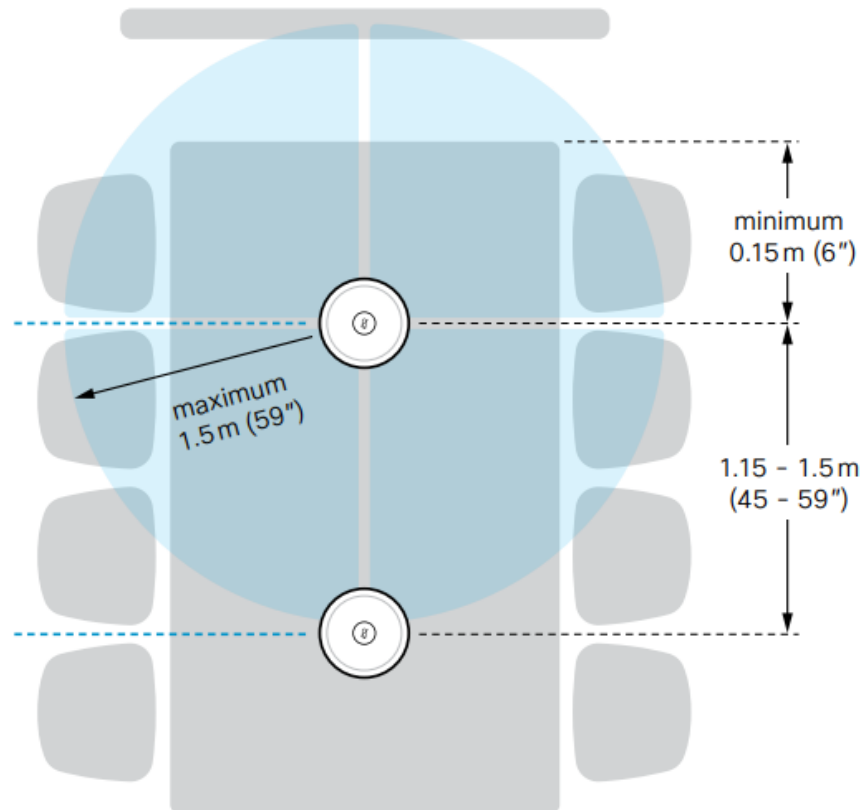

Installation Guide

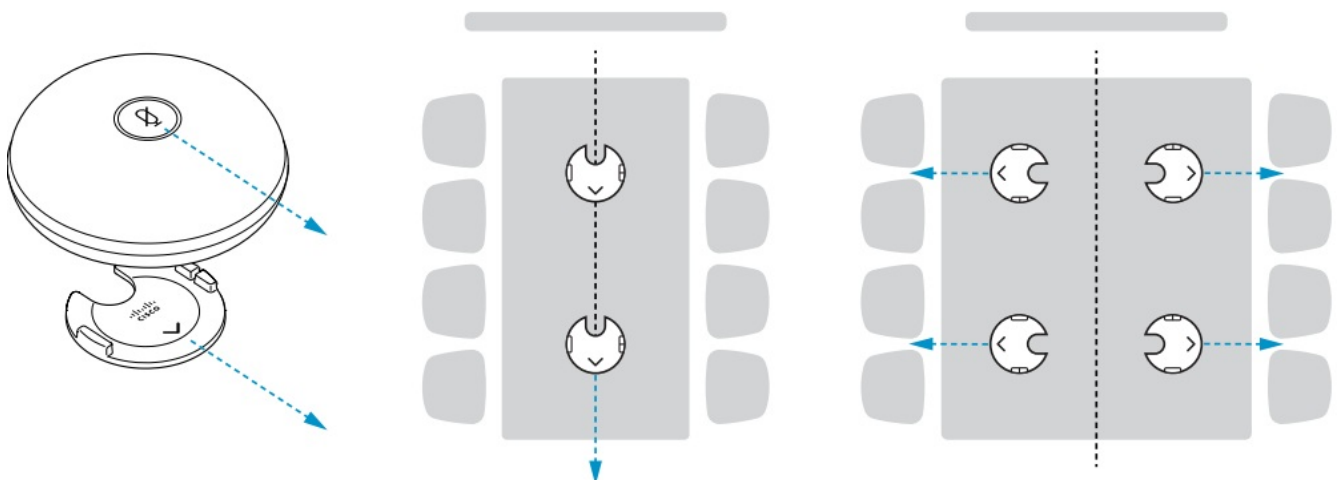

- <https://www.cisco.com/go/offices> | 78-101799-01B0
- Cisco Systems Inc., Corporate Headquarters, 170 West Tasman Dr., San Jose, CA 95134, USA.
- © 2023 Cisco Systems, Inc. All rights reserved.

Microphone placement and orientation

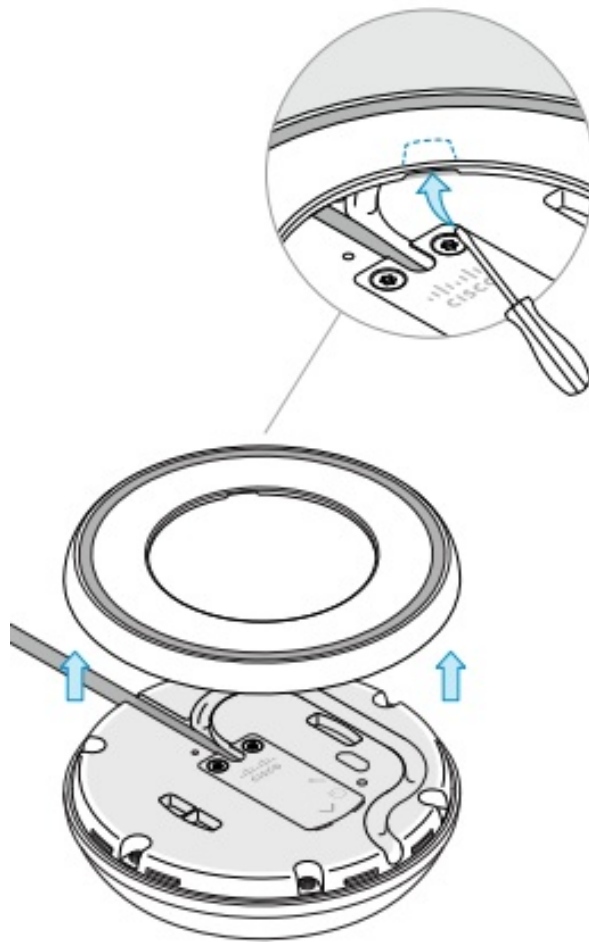

- Place microphones between people; not directly in front of a person.

- For microphones placed along the table centerline, the arrow should point away from the screen. If not placed along the centerline, the arrow should point toward the sides where people are sitting.

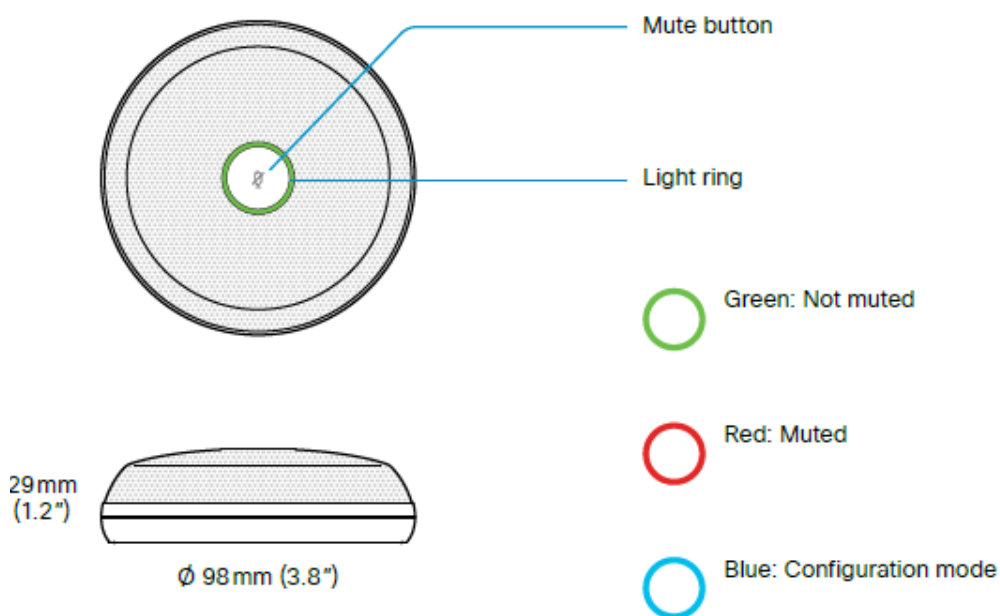

Removing the cable cover

FCC

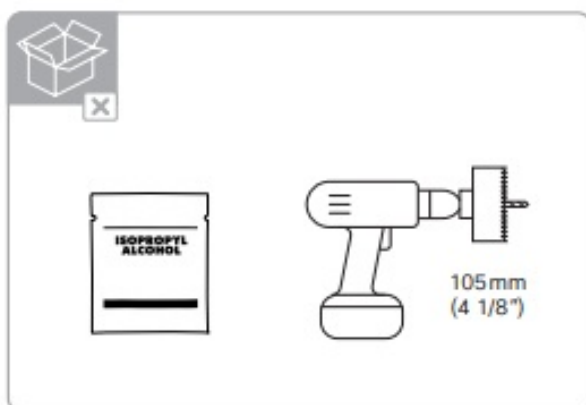

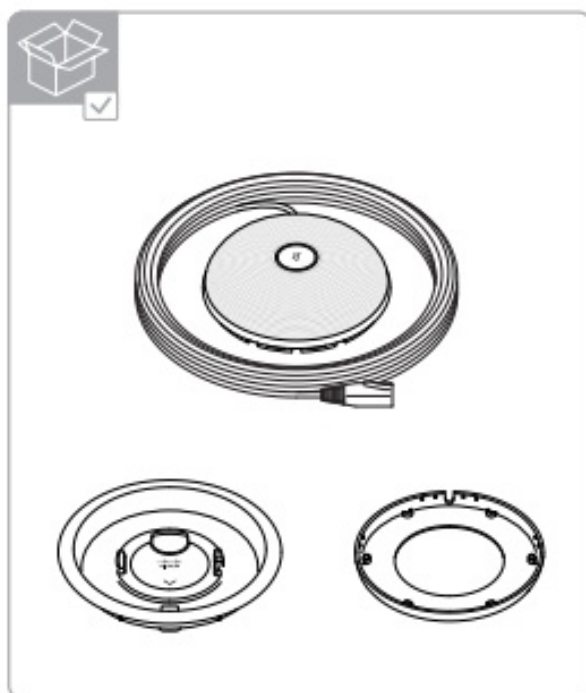

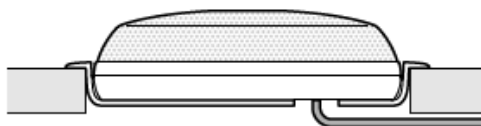

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.
