### USER MANUAL

Thank you for purchasing the C.1Tech Slim Wireless Multi-Device Keyboard

Use this viceless keyboard to type on any Bluetooth® enabled device. It is compatible with Windows, Android and Mac computers, tablets and mobile devices so you can type with ease and efficiency. The Bluetooth function lets you connect up to 3 devices at a time. The built-in cradle holds your phone or tablet at the perfect angle so you can see what you're typing. This keyboard makes a great addition to any home office or workplace.

### Pairing the CJ Tech Slim Vardess Multi-Device Keyboard

Note you can pair too to 3 Bluetooth devices to this keyboard. The 1st Bluetooth device paired will default to FN+1. the second device will default to FN+2 and the third device paired will default to FN+3

- 1) Turn the keyboard ON with the power switch located near the top right-hand side of the keyboard
- 2) If you are connecting only one Bluetooth device press FN+C to Bluetooth mode. search for the pairing name 'CJ Tech' on your device and it
- 3) If you are connecting to more than one Bluetooth device follow these steps. To pair the first device to the keyboard. Press the FN+1 at the same time 3 lights will flash. Then press FN+C and a blue light will continuously flash. Find the pairing name 'CJ Tech' on your device to pair the 1st device to the Keyboard.
- 4) Make sure the Bluetooth is turned ON on your device and search and find the pairing name 'CJ Tech'
- 5) You are now connected to your device and can start using the CJ Tech Bluetooth Keyboard.
- 6) To pair the 2nd device to the keyboard. Press the FN+ 2 and the same 3 lights will flash. Then press FN+C and a blue light will continuously flash. Find the pairing name on your device to pair the 2nd device to the Keyboard
- 7) Press the FN+3. the third Bluetooth channel will open and connect to the 3rd Bluetooth device. Then Press FN+C and a blue light will continuously flash. Find the name on your device to pair the 3rd device to the Keyboard
- 8) You can then toggle between the 3 devices you have paired to this keyboard. Select FN+1 or FN+2 or FN+3 and the 3 lights on the keyboard will flash. Once the lights flash this means the device you have selected will be paired with the keyboard. Note once you pair a device to the keyboard it will save it so you don't need to go through the pairing again
