UPDATING CST RESPIRATOR FIRMWARE CST

Contents [hide]

Clean Space App

Clean Space CST respirators have firmware updating capability when connected to the Clean Space SMART App.

Firmware updates may include performance optimizations that make the respirator operate more efficiently. This can result in better battery life, faster response times and overall improved performance. Updating firmware can also lead to improved respirator stability.

- Confirm you have downloaded and installed the Clean Space Smart App onto your mobile device.
- Refer to the Clean Space SMART App Set Up Guide available on our website.
- Firmware update steps are the same for iOS and Android devices (images below are examples of an iOS layout).
- For the latest firmware version number visit FAQs section of our website.

Pair your Clean Space CST Respirator and follow the steps to update Power Unit firmware.
