Troubleshooting

1. APP can not find the device.

- Make sure the phone's Bluetooth is on.
- Allow the permissions of the APP. APP needs them to connect the device. Check string light is on.
- Kill APP, turn off Bluetooth, and turn on Bluetooth again, then start the APP to add the device again.
- Ensure the phone is within 4ft of the product without obstructions when connecting.
- Your phone may be incompatible with the APP, try another phone.

2. All the lights don't work.

- Ensure the power is on.

- Connect the APP and turn on the light, and turn up the brightness.

3. **Some light beads keep off or fail to work.**

- Check the pixel number setting on the APP.
- Contact us.

Customer Service

If you have any questions or product issues, please contact the seller via the email on the package or get product support on the order page in your purchasing account. All messages will be replied to within 24 hours.

FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference
2. This device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, under part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used according to the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. Suppose this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. In that case, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body.

FAQ

- **What should I do if the equipment causes interference?**
Try reorienting or relocating the receiving antenna, increasing the separation between devices, or consulting a professional for assistance.
- **How do I ensure compliance with FCC radiation exposure limits?**
Maintain a minimum distance of 20cm between the radiator and your body during installation and operation.
