cleverio 51583 Mini Remote Socket Kit User Guide

CLEVERIO

Mini Remote Socket Kit
Quick start guide
Item: 51583

Contents

Get started

1. Connect the plug to a wall outlet.
2. Press and hold the button on the plug for 3 seconds, then release the button. The indicator on the plug starts flashing.
3. Choose a channel you want to use on the remote control (A, B, C or D) and press the On button in that row within 30 seconds to pair the plug with the remote.

   Note! You can pair multiple plugs to the same channel and control them simultaneously. For example, to control all plugs in the living room using On/off on channel "A".
4. Press the On and Off button for the channel on the remote control to turn the paired plug on or off. The indicator on the remote control lights up when you send a command. Wait for the indicator on the remote control to stop flashing before sending the next command. The indicator on the plug lights up red when the plug is on.
5. Repeat the steps to pair the next plug.

   Visit **www.kjell.com/51583**, your local store or contact customer support for more information and full user guide.
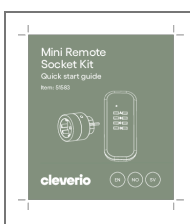

Safety notes

Do not connect to extension cords. Not suited for equipment that requires constant supervision, such as a clothes iron. Only for use in temperatures from 0-35 °C. Do not disassemble the plug. The range of 25 metres can vary due to concrete walls, electrical or electromagnetic sources that can interfere with the signal.
