6. App cross-application functions

Scenes	Steps
Required Steps: Before using the function, open the APP	
set language + turn on Translate, Read aloud,	
cross-application switch	

Send Text Messages to Foreign Friends	Click on the chat input box, press and hold the Voice control keys without letting go. After speaking a sentence into the phone, release the Voice control keys. The system will automatically paste the content into the input box and send it with one click.
Send Voice Messages to Foreign Friends	(In the chat interface) Press and hold the Voice control keys, speak a sentence into the phone, then press and hold the "press and hold talk" button (of the chat software), and then release the Voice control keys. At this moment, the voice of reading the translation will appear. After the reading is completed, release the "press and hold to speak" button (in this way, the translated voice will be automatically sent to the other party).
Translate	
Text	Copy the text sent by foreign friends, return
Messages	to the "FunEase" App, and the system will
from	automatically translate the content you
Foreign	copied into your language.
Friends	
Translate	(In the chat interface) Press and hold the voice control key, then click to play the voice message of the foreign friend, (click the t
Voice	

Messages from Foreign Friends	ext input box), wait for the voice playback to finish, and then release the voice control key. The system will read the translation immediately (the translation result will also be automatically pasted into the text box)
Make Voice & Video Calls to Foreign Friends	Open the "Video Call" function of the APP, set the language of both parties, and then click "Invite Friends to Call" to send the "Call Invitation Link" to the foreign friend, so that the other party can directly open the link to join the call. (The other party can talk to you without downloading the APP)

4. For products that have exceeded the warranty period, our company will continue to provide you with paid services.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

— Reorient or relocate the receiving antenna.
— Increase the separation between the equipment and receiver.
— Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
— Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
