## FCC statement

Operation is subject to the following two conditions

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

## Note

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not

installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## FAQ'S

### How to set the clock?

Please press the “menu” button and then press “OK” button.

### What is the point of a projection alarm clock?

The genius behind the projection alarm clock is that you can read the time on the clock face, or you can simply look up at your wall or ceiling to see the time projected in a clearly visible image.

### How do you turn off the alarm on a projection clock?

Press the ALARM button once to view alarm time. Press the ALARM button again to activate the alarm. Bell icon appears. Press the ALARM button again to deactivate the alarm.

### How do you change the time on a projection alarm clock?

You press the mode. Button. Make sure keep pressing mode it says Al hold. And press the set button for like three seconds. Again first item to be changed starts flashing the hours.

### What does a projection alarm clock do?

A projection clock (also called ceiling clock) is an analog or digital clock equipped with a projector that creates an enlarged image of the clock face or display on any surface usable as a projection screen, most often the ceiling.

### Can I replace projection alarm battery?

Alarm batteries need to be changed every 3 to 5 years. Your home's security system should alert you when the battery needs to be changed. It's normal for the keypad to state “low battery” or it will chirp daily to alert you.

### How to adjust brightness?

Please press “snooze or dimmer” button.

### How do I set the date and time on my alarm panel?

System. Now you just press the pound key and that's pound out then give it a second and the time will display. So here is how you set your time. Notice it's showing p.m. if I didn't put in military.

### How do I reset the time on my projection clock?

Bring both units inside and have the units 3-5 feet apart with nothing between them.  
Remove all power from both units.

Press one of the buttons on the display at least 20 times to clear all memory.  
Let all the units sit with batteries out for 10 minutes.

### How do you turn off alarm with volume button?

For that, we have to go to the Clock app that comes with our mobile. Once here, regardless of whether you are in the Time, Stopwatch, or Alarm section, click on the app options on the three-dot button in the lower right corner, and select Settings. At the end you have an option called Volume buttons.

### Why are my projection alarm clocks not working?

To clear the cache and data for the Clock app, tap on Settings > Apps > Clock. Alternatively, long-pressing the Clock app on your phone screen and selecting App Info also does the trick. Whichever way you decide, your next move is to select Storage > Clear Cache, and this should ensure your Android alarm works again.

### How to turn on/off FM Radio?

Please press the “FM Radio” button, you can see the following menu...
