Cobra SC 220C Dash Cam User

Specifications

- **Model:** SC 220C Dash Cam with Interior Camera
- **Features:** Radar, speed, and red light camera alerts; Heads-Up
  Navigation; Cloud Video Management; Over-The-Air Updates
- **Power Input**: USB-C
- **Memory:** 16 GB Micro SD Card
- **Mounting:** Windshield Mount with Slide-Out Mount

Product Usage Instructions

Mounting the Dash Cam

- Attach the Slide-Out Mount to the windshield.
- Connect the USB-C cable to the dash cam.
- Plug the power adapter into the vehicle's 12V port.

Adjusting Camera Settings

- Rotate the front camera lens to be parallel with the road for optimal recording.
- Adjust the interior camera to capture a view of the driver and passengers.

Using Electrostatic Film (Optional)

- Place the included electrostatic film in the desired location for a semi-permanent installation.
Upgrading SD Card

- If upgrading your SD card, visit Cobra.com for a list of compatible cards.

SC 220C Features

SD Card Slot

Interior Camera — LED Status Light

Touch Navigation Buttons
Powering Up the SC 220C
Drive Smarter® App

- Once the dash cam is powered on, follow the on-screen setup instructions to download and connect to the Drive Smarter® app.
- A connection to the Drive Smarter® app is required in order to access features like 360 Alerts, Mayday Alert, Parking Mode Notifications, and Live View.
What's Included

SC 220C Dash Cam with Interior Camera

USB-C Data Cable

Micro SD Card
16 GB

6 Wire Clips & Cable Routing Tool

Vehicle Charger

Slide-Out Mount (Pre-mounted on camera)

3 Electrostatic Films

Windshield Mounting

6 Wire Clips &
Cable Routing Tool   Vehicle Charger   Electrostatic Film

- Find an area on your vehicle's windshield that is centrally located and close to the top of the windshield. Make sure the mounting area on the windshield is clean. The dash cam should be mounted so the display is easily visible to the driver.
(Optional: Place the included electrostatic film on the desired location for a semi-permanent install).
- Plug the power cable into the dash cam and then route the power cable along the headliner using the included tool and cable routing clips as needed.

Rotate front camera lens so that it is parallel with the road.

Rotate the interior cam so that it captures a view of the driver and passengers.

Camera Tips

- Your dash cam features continuous loop recording, which deletes your oldest videos on the included SD card to make space for new recordings. Save your favorite clips from being overwritten by pressing the Action Button.
- If you need to format the SD card, please do so in the camera itself within the settings menu. Do not format the SD card on your PC.

- The dash cam may occasionally prompt you to format your SD card. This is done to ensure continuous recording operation, but this action will delete your saved footage. Before formatting, download and save your favorite clips using the Drive Smarter® app or by connecting the camera to your PC with the included data cable.
- Parking Mode requires a hardwire connection to the vehicle's battery or OBD-II port to power the camera while the vehicle is off (Hardwire Kit available on Cobra.com).
- Parking Live View requires an internet connection for the camera (in-vehicle hotspot or nearby WiFi access point) in order to stream a live feed from the camera to the account holder's Drive Smarter app. Please consult the owner's manual for more details.

warning: If upgrading your SD card, please visit Cobra.com for a list of compatible cards.

Your Cobra® SC 220 pairs with the Drive Smarter® app.
DRIVE SMARTER® APP FEATURES:

- **360 Alerts**
