E Light System Composer Software: **www.colorkinetics.com/global/support/lsm**

Install Light System Composer Software

Push and release to start-up or shut down

DO NOT press and hold the power button or the LSM will not shut down properly. If the LSM does not shut down properly, file system corruption may occur.
- Verify power is off before installing or de-installing.
- B Do not use any voltage or current the product is not rated for.
- Do not attempt to install or use until you read and understand the installation instructions and safety labels.
- Do not use if the product housing or power cables are damaged.
- Do not modify or alter the product. Doing so will void the warranty.
- This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
- CAN ICES-3 (A)/NMB-3(A).
- **Warning –** This is a class A product. In a domestic environment, this product may cause radio interference in which case the user may be required to take adequate measures.
- Light System Engine uses open-source software. Open source licenses and terms can be accessed via the Light System Engine web interface in the Config>Settings menu.
