COMMANDTOOLS
DO IT YOUR WAY

COM206067 400g Pinpoint Propane Torch Kit plus Hand Sparker

Description

The Command Gas Pinpoint Brass Torch Kit is ideal for DIY, handyman, and light trade applications. Suitable for heating, soldering, brazing, and thawing frozen pipes. The kit comes with a Command Gas 400g Propane cartridge, pinpoint burner, and hand sparker reaching up to 1900°C. Ideal for the shed, workshop, automotive, and general handyman work.

Features

- Manual ignition
- Adjustable flame for precise operation
- Soldering to a maximum pipe diameter of 6mm
- Portable & lightweight
- Solid brass burner tube
- The flame control valve easily sizes flame & extinguishes it when finished
- Includes hand sparker

Specifications

- Gas Type: Propane
- Connection Type: BOM (CGA600) fitting
- Flame Type: Pinpoint
- Tip Diameter: 15 mm

Safety Precautions

Before using the Pinpoint Propane Torch Kit, please read and understand all safety instructions provided in the user manual. Ensure proper ventilation when using the torch to prevent the build-up of fumes.

Assembly

Assemble the torch kit according to the instructions provided in the manual. Make sure all connections are secure and tight before use.

Fueling the Torch

Fill the torch with propane following the manufacturer's guidelines. Ensure the fuel valve is closed before attaching the fuel canister.

Ignition

Use the Hand Sparker provided to ignite the torch. Follow the proper ignition procedure to avoid accidents.

Adjusting the Flame

Once ignited, adjust the flame to the desired intensity using the flame control knob on the torch. Ensure the flame is stable and not flickering.

Usage

Direct the flame as needed for your specific application, keeping a safe distance from flammable materials and objects. Always wear appropriate protective gear when operating the torch.

FAQs

Q: Is it safe to use the torch indoors?

A: It is recommended to use the torch in well-ventilated areas to prevent the accumulation of fumes. Avoid using it indoors unless in a properly ventilated space.

Q: How do I maintain the torch kit?

A: Regularly check for any leaks, clean the torch nozzle, and store it in a dry, safe place when not in use. Refer to

the user manual for detailed maintenance instructions.
