Pressing the Video Record button for 3 seconds will turn the cameras Wi-Fi hot spot on and off while the device is in standby mode. The Video Record button LED will turn Blue to indicate Wi-Fi is turned on.

APP Downloading

Download and install the Android app by scanning the QR code below:

Connecting APP to VC-1 Camera

1. Press the Video Record button for 3 seconds.
2. The Video Record button LED will turn Blue to indicate Wi-Fi is turned on.
3. Start the C1 "Logger" Android App on your Android phone
4. Click "Connect Device"
5. The App will ask you to go into Wi-Fi settings to connect to the VC-1
 - Default Wi-Fi password is 123456789

6. Once connected, the App will display a live video stream from the VC-1 Camera.

7. C1 Logger App users can then:

- Stream live video
- Display recorded files and download the files to play
- Start and stop recording from the App
- Take a photo snapshot from the App
- The time and date on the camera is automatically updated from the App on connection.
- Basic camera settings can be updated.

For more details see the Visiotech C1 Android APP Manual
