Conceptronic CBT40NANO Bluetooth V4.0 Nano USB Adapter

Product Description

The Conceptronic Bluetooth V4.0 Nano USB Adapter allows wireless connections to various Bluetooth devices such as PDAs, mobile phones, GPS receivers, mice, or other computers. With low power consumption and a compact design, it can remain plugged into your notebook for convenient use, making it ideal for mobile users.

Features

- Supports Bluetooth EDR data rate up to 3Mbps
- Supports various profiles, including Serial Port, Object Push, File Transfer, LAN Access, and more
- Compatible with Windows XP/7/8/8.1/10
- Possesses a unique MAC address. Small, compact, and easy to carry

Package Contents

- CBT40NANO Bluetooth USB Adapter
- Software CD
- Multilingual Quick Installation Guide

Product Usage Instructions

1. Insert the CBT40NANO Bluetooth USB Adapter into an available USB port on your computer.
2. Follow the on-screen instructions to install any necessary drivers from the included Software CD.
3. Once installation is complete, the adapter will be ready to use.
4. To connect to a Bluetooth device, ensure the device is discoverable and use your computer's Bluetooth settings to pair with it.
5. You can now transfer files, connect peripherals, or use other Bluetooth features with the paired device.

Short Description

- Bluetooth version 4.0 (Class 1)
- Simple Plug and Play installation 2 7/30/25
- Low power consumption

- Working distance: 50 meters
- Possesses unique MAC address
- Small, compact and easy to carry

Description

The Conceptronic Bluetooth V4.0 Nano USB Adapter can create a wireless connection to other Bluetooth devices like a PDA (handheld), mobile phone, GPS receiver, mouse or to another computer. The low power consumption and ultra-compact form factor allows you to leave it plugged into your notebook. Perfect for mobile users!
