Conecto COSSC2MP Smart Static Camera 2MP

Product Specifications

- **Model:** COSSC2MP Smart Static Camera 2MP
- **Operating Frequency:** 2412 MHz-2472 MHz
- **Channel Used:** 1-12
- **Max Output Power:** 20dBm
- **Power Supply:** DC5V 1A 5W

Product Usage Instructions

Setup

1. Before starting, note down your network name and password. The camera only works on a 2.4GHz WiFi network.
2. Download and install the Smart Life app from the Apple App Store or Google Play Store on your mobile device.
3. Connect the power adapter to the camera and plug it into a wall socket.
4. Launch the Smart Life app, create or log in to your account, and add the device by following the on-screen instructions.

Safety Information

1. Keep the camera away from water, fire, or hot environments.
2. Do not attempt to disassemble, repair, or modify the device.
3. Do not use the camera where wireless devices are not allowed.

Important Notes

Always turn off power to the circuit before installation. Use only the specified control to operate the camera.

FAQ

Q: What should I do if I receive a notification that the product only works on 2.4GHz networks?

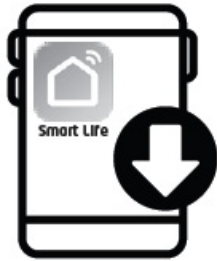

A: Change the WiFi frequency of your network to 2.4GHz only in the settings menu of your router.

COSSC2MP
Smart Static Camera 2MP

Set up in 4 easy steps

Before you start write down your network name & password. This item only works on a 2.4GHz Wifi network, not on a 5GHz WiFi network. Please consult the manual of your router for settings.

1. Download and install the app "Smart Life" from Apple App Store or GooglePlay Store on your mobile device.

2. Connect the power adapter to the device. Insert the mains plug of the power adapter into the wall socket.
3. Launch the app “Smart Life”. Create a new account or log in to your existing account. Tap “+” to add the device.

4. Simply follow the instructions in the Smart Life app to complete the setup. If you get the notification the product only works on 2.4GHz networks you should change the WiFi-frequency of your network to 2.4GHz only in the setting menu of the router.

IMPORTANT

Always shut off power to the circuit before starting installation work.

Only use the control provided with or specified by these instructions to control this device.

SAFETY INFORMATION

1. Keep the device away from water, fire or hot environments.
2. Do not attempt to disassemble, repair, or modify the device.
3. Do not use the device where wireless devices are not allowed.

- OPERATING FREQUENCY: 2412 MHz-2472 MHz CHANNEL USED: 1-12
- MAX OUTPUT POWER: 20dBm

This equipment is intended for indoor use.

POWER SUPPLY

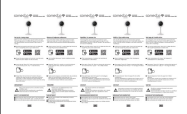

Adapter Manufacturer	Shenzhen Fangxin Technology Co., Ltd.
Address	3rd Floor, Building 9, Area A6, Tongfuyu Industrial Zone, Shajing Street, Baoan District, Shenzhen
Type	WRP2E-050100U
Input voltage	AC100-240V
Input AC frequency	50/60Hz
Output voltage	DC5V
Output current	1A
Output power	5W

This symbol on the product or in the instructions means that your electrical and electronic equipment should be disposed at the end of its life separately from your household waste. There are separate collection systems for recycling in the EU. For more information please contact the local authority or the retailer where you purchased the product.
