INSTALLATION

1. Remove the vehicles head unit by following the manufacturer's instructions/ guidelines. Once removed, disconnect all the power connections.
2. Connect the female 8-way ISO connector from the CAM-SZ2-RT to a separate ISO T-harness or steering wheel control harness (sold separately).
3. Connect the vehicles green 5-way reverse camera connector to the equivalent found on the CAM-SZ2-RT.
4. Connect the male Yellow RCA jack to the rear camera input of the aftermarket radio.
5. Connect the 8-way ISO connector to the head unit. When done, proceed to connect the main power and test the reverse camera's functionality before reassembling the dashboard.

Note: when testing the head unit, ensure that within the 'camera settings' menu, the camera preset is set to on (the location of this setting will differ from head unit manufacturer).
