CONRAD 2377700 Toolkit RC Servo Tester

Safety Instructions

ST8 Servo Tester
Item no: 2377700

Intended use

- Use the product to test servos.
- If you use the product for purposes other than those described, the product may be damaged.
- Improper use can result in short circuits, fires, or other hazards.
- The product complies with the statutory national and European requirements.
- For safety and approval purposes, you must not rebuild and/or modify the product.
- Read the safety instructions and any accompanying instructions carefully and store them in a safe place.
- Make this product available to third parties only together with the safety instructions and any accompanying instructions.
- All company names and product names are trademarks of their respective owners. All rights reserved.

Latest product information

Download the latest product information at www.conrad.com/downloads or scan the QR code shown.

Follow the instructions on the website.

Description of symbols

The symbol with the exclamation mark in the triangle is used to indicate important information in this document. Always read this information carefully.

Safety instructions

Read this document and the accompanying operating instructions carefully and especially observe the safety information. If you do not follow the safety instructions and information on proper handling, we assume no liability for any resulting personal injury or damage to property. Such cases will invalidate the warranty/guarantee.

General

- The product is not a toy. Keep it out of the reach of children and pets.
- Do not leave packaging material lying around carelessly. This may become dangerous playing material for children.
- If you have questions which remain unanswered by this information product, contact our technical support service or other technical personnel.
- Maintenance, modifications and repairs must only be completed by a technician or an authorized repair center.

Handling

- Handle the product carefully. Jolts, impacts or a fall even from a low height can damage the product.

Operating environment

- Do not switch the product on after it has been taken from a cold to a warm environment. The condensation that forms might destroy the product. Allow the product to reach room temperature before you use it.
- Never operate the product in direct proximity of strong magnetic or electromagnetic fields or transmitter aeriels or HF generators. Doing so can prevent the product from functioning properly.

Operation

- Consult an expert when in doubt about the operation, safety or connection of the appliance.
- If it is no longer possible to operate the product safely, take it out of operation and protect it from any accidental

use. DO NOT attempt to repair the product yourself. Safe operation can no longer be guaranteed if the product:

- is visibly damaged,
- is no longer working properly,
- has been stored for extended periods in poor ambient conditions or
- has been subjected to any serious transport-related stresses.

Technical data

- Input voltage 7 – 28 V/DC
- Input current max. 10 A
- Operating temperature +10 to +40 °C
- Operating humidity 10 – 90 % RH (non-condensing)
- Storage temperature -20 to +70 °C
- Storage humidity 10 – 90 % RH (non-condensing)
