Instruction for OKOK App

Instantly Weighing

Open the OKOK APP, it will remind you to switch on Bluetooth. Turn Bluetooth on and the auto-pair process completed automatically. User begins weighing, the weight data will be synchronizing to APP. If the Bluetooth disconnected, the weight data will be saved into memory of the scale, then synced to APP while the Bluetooth connected.

Type weight data into APP

The user can type weight data into APP to keep a track

Current weight

Current weight interface displays weight information of the user and family members, and generates the report and gives health advice based on the measurement. Including current weight interface, weight list interface, date report and notice.

Weight trend

Including weekly report, monthly report and quarterly report, indicating the changes of weight through curves.

Notice:

For fat scale, in addition to weighing data, it also includes body shape, obesity, weight, BMI, body fat rate, fat weight, muscle rate, muscle weight, visceral fat, water, water content, basal metabolism, bone mass, Protein, fat-free weight, fifteen item data

Management of scale

Management of scale including two parts: scale management and connection management

Scale management

Manage the process of pairing, bind and unbind

Connection management

Including Bluetooth status indication and Bluetooth connection

Account and user

Including account management and user management

Account Management

Including registration, login in, change password, forget password, links to Facebook, Twitter. ... etc.

User Management

Manage user information, including nickname, birthday, height, gender etc, also managing family member account and information (under the same registration account).

Warnings

1. Please keep the scale away from wet floor, don't use the scale if the glass is wet in case of slip.
2. Please stand on the middle of the scale in case of turnover.
3. The platform of the scale is made of glass, please avoid sharp or harsh things scratching the surface, excessive forces or sudden shocks, unexpected fallen-off will break the glass and injure the user.
4. The Bluetooth scale is not waterproof. Keep the surrounding environment dry, do not submerge it in water.
5. Use soft cloth with neutral cleaning liquids to clean the surface, keep away from contacting with organic solvent or chemicals.
6. When the batteries are in low power status, please remove the batteries in case of leaking liquids corroding the scale.

Notices

1. Please stand on the scale in the right direction.
2. Please stand on the scale no less than 10 seconds if you measure body fat.
3. Please confirm gender, height, weight data is correct

Specification

- Display: Weighing range: 0.2KG-180KG
- Division: 1 D=100g/0.21 b
- Unit: KG/LB
- Voltage: 3V
- Battery: 2*AAAbattery
- Low battery indication: 2. 4V+0.2V, display "Lo" and power off
- Current: Ei25mA
- Standby current: .; 10 μ A
- Overload indication: overload more than 2.5kgs, total 182.5kgs display "Err"
- Best working temperature: 5-35°C
- Storage temperature: -10~60°C
- Moisture Environment: Ei90%RH

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

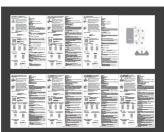

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

The device has been evaluated to meet general RF exposure requirement, the device can be used in portable exposure condition without restriction
