CONTEMPORARY CONTROLS Using OpenVPN File on iOS

Using OpenVPN File on iOS

1. Install OpenVPN App

- Go to the App Store and Search for OpenVPN Connect.
- Download OpenVPN Connect on your iOS device.

2. Email the roadwarrior .ovpn file from your RemoteVPN account.

3. Click on the .ovpn file and select the OpenVPN icon.

4. The Import Profile option opens up in the OpenVPN app.

- Select the Add option under the profile name.

5. Click Allow if a pop up appears requesting permission to add the VPN configuration.

- Enter your password if prompted.

6. The Profiles now show the newly added OpenVPN profile.

7. Click on the slider next to the OpenVPN profile name. The VPN connection will become active, and the slider will turn green. It will also show the connection statistics.

8. Click the slider again when you need to disconnect. Click OK if a Disconnect VPN pop-up appears.
