## COOPER ML Flex Series Canless LED Down Lighting

## **ML Flex Series – Canless LED Downlighting 3-inch Round & Square Downlights and Wall Washers**

The ML Flex Series is a set of striking, high-performance fixtures available in four sizes (1, 2, 3, and 4-inch). ML Flex Canless luminaires share light engines between the two larger and two smaller aperture sizes making trim changes between size, shape (round or square), and downlight or wall wash effortless.

The ML Flex 3-inch fixtures are offered with an array of flanged downlight and wall wash trims in smooth or baffle and round or square. Control beam angles with interchangeable 25°, 40°, 55°, and 25° asymmetric wall wash optics. Customize lighting with lumen select and 5-color or Dim-to-Warm seleCCTable™ along with flicker-free dimming to less than 5% in phase cut (120V) or 0-10V (120-277V) versions. For a beautiful, quiet ceiling, install ML Flex 3-inch fixtures with a flushmount mud-in ring.

Typical Applications Residential, Hospitality, Healthcare, Retail
