CONGRATULATIONS!

The CORSAIR K70 RGB MK.2 is a premium mechanical gaming keyboard built to last. Equipped with a lightweight durable aluminum frame and 100% CHERRY MX gold-plated contact keyswitches, it boasts the reliability and accuracy you demand. Vivid per-key RGB backlighting and macros allow for near-unlimited customization, and with 8MB of dedicated memory and hardware playback, you can take all your settings with you. A host of extras put your PC at your fingertips, with USB pass-through, dedicated multimedia controls, a detachable soft-touch wrist rest and textured FPS and MOBA keycaps making it easy to play your way and minimize interruptions. It's the most amazing K70 keyboard yet.

SETTING UP YOUR KEYBOARD

- Turn on your computer
- Connect keyboard connector to one USB 3.0 port
- To take advantage of USB 2.0 pass-through port on the keyboard, please connect the keyboard's USB pass-through connector to one USB 2.0 / 3.0 port
- Download the CORSAIR Utility Engine (CUE) software from **www.corsair.com/downloads**
- Run the installer program
- Follow the instructions for installation

Note: For use only with Nationally Recognized Testing Laboratory listed end product and USB output rated 5Vdc, 900 mA.

ONBOARD PROFILES

PROFILE #1	PROFILE #2	PROFILE #3
SPIRAL RAINBOW	RAIN	RAINBOW WAVE

HARDWARE PLAYBACK

The 8MB of onboard memory allocated for up to three profiles stores complex actions or custom lighting which can be executed without additional software. Complex macros or key remaps as well as custom lighting effects

can be created and saved back to onboard storage using CUE software. Use Profile Switch key to cycle through saved onboard profiles.

NOTE ON ENVIRONMENTAL PROTECTION
After the implementation of the European Directive 2012/19/EU in the national legal system, the following applies:

—Electrical and electronic devices may not be disposed of with domestic waste.
—Consumers are obligated by law to return electrical and electronic devices at the end of their service lives to the public collecting points set up for this purpose of point of sale. Details to this are defined by the national law of the respective country. This symbol on the product, the instruction manual or the package indicates that a product is subject to these regulations. By recycling, reusing the materials or other forms of utilizing old devices, you are making an important contribution to protecting our environment.
CAUTION! The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user authority to operate the equipment.

FCC STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device must not be co-located or operating in conjunction with any other antenna or transmitter.
Operation is subject to the following two conditions:

1. this device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.
