## REPLACING THE SWITCHES

1. The Artemis keyboard is upgraded to support Swappable Outemu switches. This means that switches are not soldered onto the PCB, and you can easily remove and replace switches.
2. This helps to increase the life span of the keyboard. If any of the switch stops working just use the included Keycap and Switch puller to remove the keycap and switch and replace the switch with a new one.
3. You can also change the switch colour to any Blue, Red, Brown or other Outemu
4. Swappable Switches to customize the keyboard as you require without any hassle.

## TROUBLESHOOTING

1. **Resetting the Keyboard**

Ans: If you face any issue with the keyboard, we will first recommend you reset the keyboard by pressing FN+ESC key for 3 seconds. This will reset the keyboard to its factory default settings.

## 2. PC not detecting keyboard

Ans: Kindly try and change the USB port used to connect the keyboard. We recommend you connect the keyboard directly to the back of the PC to avoid any issue with detection. Use of USB extensions can cause the PC failure in detecting the Keyboard.

## 3. Additional Support:

Ans: Contact our customer care team on [cc@thecosmicbyte.com](mailto:cc@thecosmicbyte.com) to troubleshoot or claim warranty. Please note warranty will not be valid if purchased from Unauthorized Sellers or for products tampered by third party technicians.

## SUPPORT DETAILS

- **Contact no:** 07969273222 (Mon-Sat 1 Oam to 6pm)
- **Email:** [cc@thecosmicbyte.com](mailto:cc@thecosmicbyte.com)

## WARRANTY

The Keyboard carries I Year warranty against manufacturing defects only. Physical, Water damage and Tampered products are not covered under warranty. Regular wear and tear from battery usage is not covered under warranty. Scan the QR code to know the Warranty Claim Procedure.
