Cosmo Appliances COS-QB90 Range Hood

Product Information

Specifications

- Product Name: COS-QB90 Range Hood
- Model: COS-QB90
- Size: 36 Inch
- Mounting Type: Under Cabinet
- Controls: Push Button
- Filters: 3 x Stainless Steel Baffle Filters
- Material: 430 Grade Stainless Steel
- Air Flow: 500 CFM
- Noise Level: 40 dB*
- Vent Style: External
- Lighting: 2 x Front LED
- Voltage: 120V / 60Hz
- Wattage: 241W
- Included Components: Bulb(s), Damper, Exhaust Vent, Fan Hardware, Installation Kit, Power Cord

Features

- 3 Fan Speeds
- Push Button Controls
- LED Lighting

Product Usage Instructions

Installation

1. Choose a suitable location for mounting the range hood under the cabinet.
2. Ensure there is proper electrical wiring and ventilation in the chosen location.
3. Refer to the installation kit included with the product for detailed instructions on mounting the range hood.
4. Securely attach the range hood to the cabinet using the provided hardware.
5. Connect the power cord to an appropriate electrical outlet.
6. Install the included exhaust vent and damper for proper air circulation.

Controls and Settings

The range hood features push button controls for easy operation.

- Press the power button to turn the range hood on or off.
- Use the fan speed buttons to adjust the speed of the exhaust fan (low, medium, high).

Cleaning and Maintenance

To ensure optimal performance and longevity of the range hood, regular cleaning and maintenance are recommended.

- Turn off the range hood and disconnect the power before cleaning.
- Remove the stainless steel baffle filters and clean them using warm soapy water or a mild detergent.
- Allow the filters to dry completely before reinstalling them.
- Clean the exterior and interior surfaces of the range hood using a soft damp cloth or sponge.
- Do not use abrasive cleaners or scouring pads that may damage the stainless steel finish.

Lighting Replacement

If the LED lights in the range hood need to be replaced, follow these steps:

1. Turn off the range hood and disconnect the power.
2. Locate the bulb(s) inside the range hood.
3. Remove the old bulb(s) by unscrewing them counterclockwise.
4. Insert the new bulb(s) and screw them clockwise until securely in place.
5. Reconnect the power and test the lighting functionality.

FAQ

- Q: What is the noise level of the range hood?
A: The range hood operates at a noise level as low as 40 dB on the lowest fan speed with rigid ducting (sold separately) under optimal conditions.
- Q: How do I determine the appropriate size for my cabinet?
A: The COS-QB90 Range Hood has a size of 36 inches, so ensure your cabinet can accommodate this width when selecting a suitable location for installation.
