[Maximize your Contour Stream Player with this antenna quick start guide.](#)

1. Connect the coax cable to the TV's "antenna/cable in" port.
2. Verify the HDMI connection from Contour Stream Player to TV.
3. Using the source/input button on your TV remote, change the source of your TV to "antenna."
4. Run a TV channel scan. Your TV user manual will provide details on how to do this.

Tips for receiving channels:

Visit [fcc.gov/mb/engineering/maps](https://www.fcc.gov/mb/engineering/maps) to obtain signal strength at your location. For troubleshooting, contact the manufacturer directly.

To access local channels through Cox, visit your local Cox store or contact us at (844) 347-2220 for more information.
