4.1 Add Camera

- When the indicator light on the device turn to steady blue light, the network configuration is complete.
- Please refer to the specific APP interface if there are any difference.

Frequently Asked Questions

1. Can I share camera with family and friends?

- Yes, you can share your cameras with family and friends who will have access to view the camera.

2. What's the Wireless Range?

– The range of your home Wi-Fi is heavily dependent on your home router and the conditions of the room. Check with your router specifications for exact range data.

3. The camera appears offline or unreachable?

– Make sure you entered the correct Wi-Fi password during the Wi-Fi setup. Check whether there is any Internet connection problem. If the Wi-Fi signal is too weak, reset your Wi-Fi router and try again.

4. Cannot connect to your Wi-Fi network.

– Make sure you entered the correct Wi-Fi password during the Wi-Fi setup. Check whether there are any Internet connection problems. If the Wi-Fi signal is too weak, reset your Wi-Fi router and try again.

5. How many cameras can I control?

– CP Plus app can control unlimited number of cameras in unlimited amount of locations. Your router may have a limit of how many cameras can be connected to one router.

Voice control works with Alexa or Google Assistant

- You can control your camera using just your voice with Alexa or Google Assistant-enabled devices.

System Requirements

- Smartphone running iOS® 9.0 or higher or Android® 5.0 or higher
