F41A ezykam Wi-Fi Camera

Product Information

The ezykam Wi-Fi Camera can be controlled using voice commands through Alexa or Google Assistant. It comes with mounting brackets and screws for easy installation. The camera supports H.265 encoding and can be managed through the ezykam+ app, which can be downloaded on both iOS and Android devices.

System Requirements

- iOS 9.0 or higher or Android™ 5.0 or higher
- Home Wi-Fi network

Technical Specifications

- H.265 encoding
- Compatible with Alexa and Google Assistant

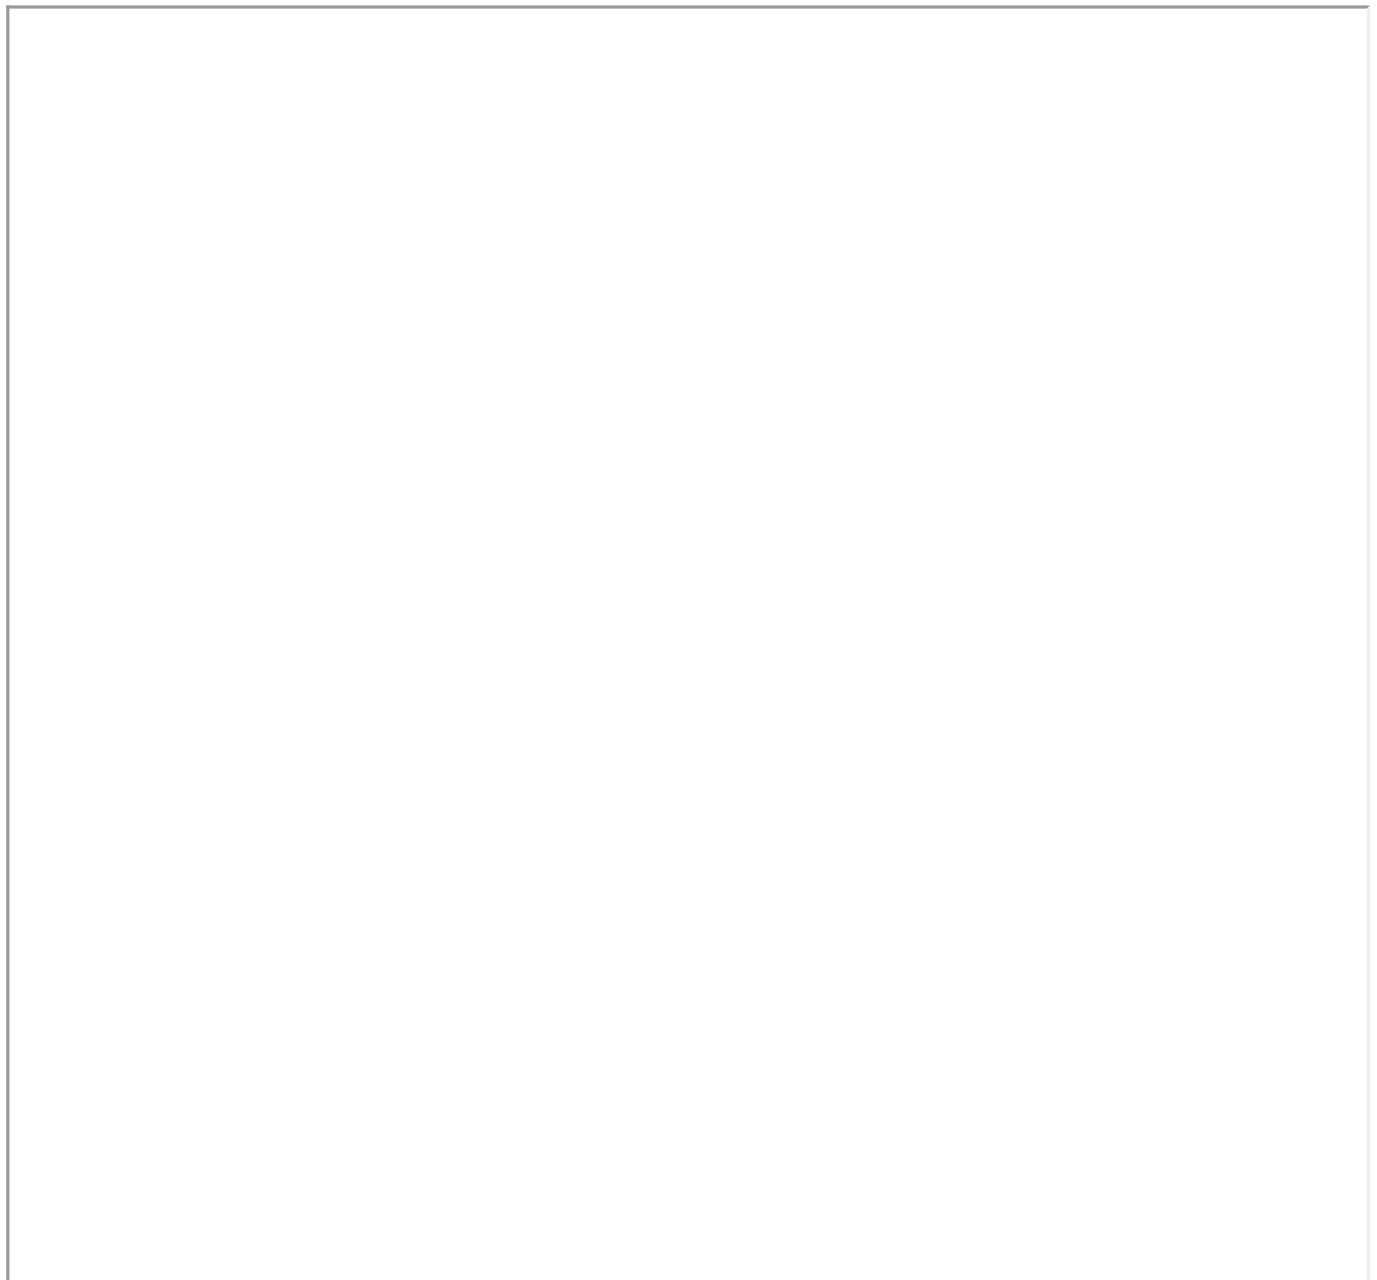

Product Usage Instructions

1. Connect the power cord to the camera according to the power cord connection diagram. The black wire is for live wire, white wire for zero wire, and yellow and green wire for ground wire.
2. Attach the dustproof pad to the bottom of the camera and tighten the screw.
3. Use the mounting brackets and screws to install the camera on a junction box on the wall.
4. Download and install the ezykam+ app on your iOS or Android

device and register an account.

5. Add the camera to your ezykam+ app by following the instructions in the app. Make sure to enter the correct Wi-Fi password during setup.
6. You can now control your camera using the app or through voice commands with Alexa or Google Assistant.
7. You can share your camera with family and friends by giving them access to view the camera through the ezykam+ app.
8. If you encounter any issues with connecting to your Wi-Fi network, make sure to check the Wi-Fi password and signal strength. You can also reset your Wi-Fi router and try again.
