START

Power on/off

1. Hold down the power button for 2-3 seconds to turn on the tablet. Select the language and follow the start-up guide to set up the tablet.
2. Hold down the power button for 2 seconds before releasing it, which will display power off and restart on the screen. Click power off to turn off the tablet.
3. Press and hold the power button for 5 seconds to do a forced shutdown, if it freezes.

Battery

1. A rechargeable Li-ion battery is installed in the tablet.
2. We suggest you drain the battery completely once a month if you only use your tablet occasionally.
3. DO NOT dispose of tablets in a fire.
4. Charge the device fully each time to increase the battery life.
5. You can charge the tablet, even if the tablet has some power left in it, as the lithium battery does not need to be fully drained to charge.
6. A full charge can be used for an average of 3 hours.

HOME SCREEN

The icon on the Bottom Menu

1. Volume Down
2. Back
3. Home Screen
4. Recent Activities
5. Volume Up

FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

This Transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

This equipment complies with SAR limits set forth for an uncontrolled environment.

The highest reported SAR values are 0.245W /kg. This equipment should be installed and operated with a minimum distance of 0mm between the radiator & your body.
