CREATE

CREATE Aroma Ceramic Diffuser

SECURITY INSTRUCTIONS

Read the following instruction carefully before using the appliance for the first time.

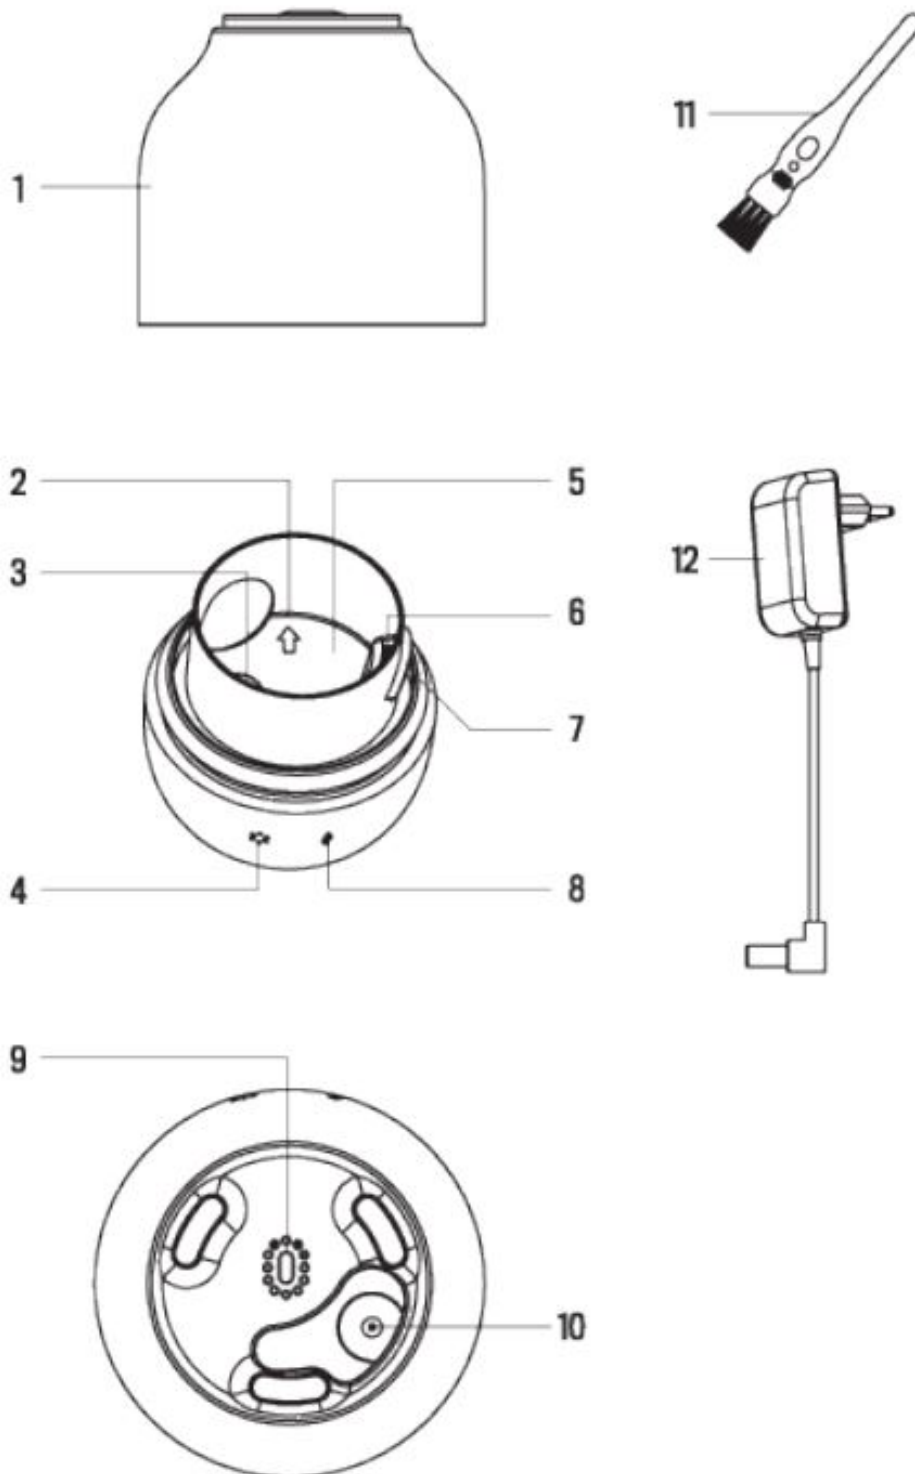

- Only use the power cord that is supplied with the unit.
- Always remove the power cord before cleaning.
- An essential oil should not come in contact with the exterior surface of the unit. Use only 100% pure essential oil. Do not use fragrance oils.
- To clean the aroma diffuser, first remove the top cover.
- Wipe with a soft cloth to avoid mineral buildup.
- Do not use strong detergents.

DESCRIPTION

- It utilizes ultrasonic vibration to transform water into mist. Essential oil could be applied to create fragrance, and it has some humidification effect.
- Water shortage protection: With water shortage detector, when being in operation, it will automatically power off if waterless, which can protect the atomizer from being burnt and broken.
- Overheating protection: The machine will automatically power off if abnormal overheating. Such function could avoid shell deformation caused by high temperature.

PARTS LIST

1. Ceramic cover
2. Drain side
3. Ceramic disc
4. Light button
5. Water tank
6. Max water level
7. Air outlet
8. Power button
9. Air inlet
10. DC plug
11. Cleaning brush
12. Power adaptor

OPERATING INSTRUCTIONS

1. Open the top cover.
 1. Avoid essential oil or acetone chemicals dropping on the cover surface because the painting can peel off.
2. Add around 130 ml tap water Inside the water tank.
 1. Do not exceed the max water line when filling water inside, two or three drops of essential oil is enough for 130 ml water.
3. Close the top cover.
4. Insert the adaptor plug Into a household power socket. Light button usage:
 1. 1st pressing: Light is on at 100% intensity.
 2. 2nd pressing: Light is on at 20% intensity.

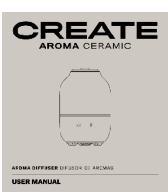

3. 3rd pressing: Candle Light mode is on.
4. 4th pressing: Light Is off.
5. When the light is on, long-press the light button to control the intensity. It can be adjusted from 100% to 30% intensity. Once the button is loosened, the light intensity is locked.
6. Power button usage 1st pressing: Continuous mist is on. 2nd pressing: Intermittent mist is on in 15 seconds intervals. 3rd pressing: Mist is off. When the unit is on, long-press the power button to turn off the unit completely.

TROUBLESHOOTING

PROBLEM	POSSIBLE CAUSE	SOLUTION
It is not working.	Power is not connected.	Connect the power and press power button.
	Power wire is broken or the adaptor has burnt out.	Please contact local retailer.

Unable to spray mist or sprays badly.	There is not enough water in the tank.	Fill with water.
	There is too much water in the tank.	If the water volume exceeds 130 ml, the mist volume will be very small.
	The ceramic disc is dirty.	Clean the water inlet.
	The top cover is not placed correctly.	Replace the top cover properly.
	The bottom air inlet is dirty.	Clean away the dust of the bottom air inlet.
Main body is leaking water.	The top cover is not placed correctly.	If the top cover is not placed properly, the water will splash out and fall onto the machine body or table.
	The room temperature is low or there is an excess of humidity.	Low temperature and wet humidity may cause the machine to sweat.
