WARNING

explosion .

Do not turn on or use the device when the battery compartment is exposed. The phone should be at least 15 cm away from any medical implant or rhythm adjuster and never put the device in your coat pocket.

Do not expose the device and other batteries together with the high temperatures or heat-generating equipment such as sunlight, heaters, microwave ovens, ovens or water heaters. Overheating of the battery can cause an explosion.

When charging is complete or not charging, disconnect the charger from the device and unplug the charger from the power outlet.

If the device is equipped with a non-removable battery, do not replace the battery yourself to avoid damaging the battery or device.

Use of an unapproved or incompatible power source, charger or battery may cause fire, explosion or other hazards.

Do not disassemble or reset the battery, insert other objects, immerse in water or other liquids to avoid battery leakage, overheating, fire or explosion.

Do not drop, crush, scratch or puncture the battery to avoid subjecting the battery to excessive external pressure, resulting in internal short-circuit and overheating of the battery.

Possibly Keep the device away from the belly of pregnant women and the lower abdomen of adolescents.

For Children and young people, please make sensible use of the device, for example by avoiding night-time communication and limiting the frequency and duration of calls.

The company does not bear the responsibility for accidents caused by non standard related charging equipment.

To prevent possible hearing damage when using a headset, do not listen to sound at high volume U for long periods

This marking on the product, accessories or literature indicates that the product and its electronic accessories (e.g. charger, headset, USB cable) should not be disposed of with other household waste.
