## WARNING

- Follow the warning information provided below to prevent incidents such as fire or explosion .

- Do not turn on or use the device when the battery compartment is exposed.
- The tablet should be at least 15 cm away from any medical implant or rhythm adjuster and never put the device in your coat pocket.
- Do not expose the device and other batteries together with the high temperatures or heat-generating equipment such as sunlight, heaters, microwave ovens, ovens or water heaters. Overheating of the battery can cause an explosion.
- When charging is complete or not charging, disconnect the charger from the device and unplug the charger from the power outlet.
- If the device is equipped with a non-removable battery, do not replace the battery yourself to avoid damaging the battery or device.
- Use of an unapproved or incompatible power source, charger or battery may cause fire, explosion or other hazards.
- Do not disassemble or reset the battery, insert other objects, immerse in water or other liquids to avoid battery leakage, overheating, fire or explosion.
- Do not drop, crush, scratch or puncture the battery to avoid subjecting the battery to excessive external pressure, resulting in internal short-circuit and overheating of the battery.
- Possibly Keep the device away from the belly of pregnant women and the lower abdomen of adolescents.
- For Children and young people, please make sensible use of the device, for example by avoiding night-time communication and limiting the frequency and duration of calls.
- The company does not bear the responsibility for accidents caused by non-standard related charging equipment.

To prevent possible hearing damage when using a headset, do not listen to sound at high volume U for long periods.

■ This marking on the product, accessories or literature indicates that the product and its electronic accessories (e.g. charger, headset, USB cable) should not be disposed of with other household waste.
