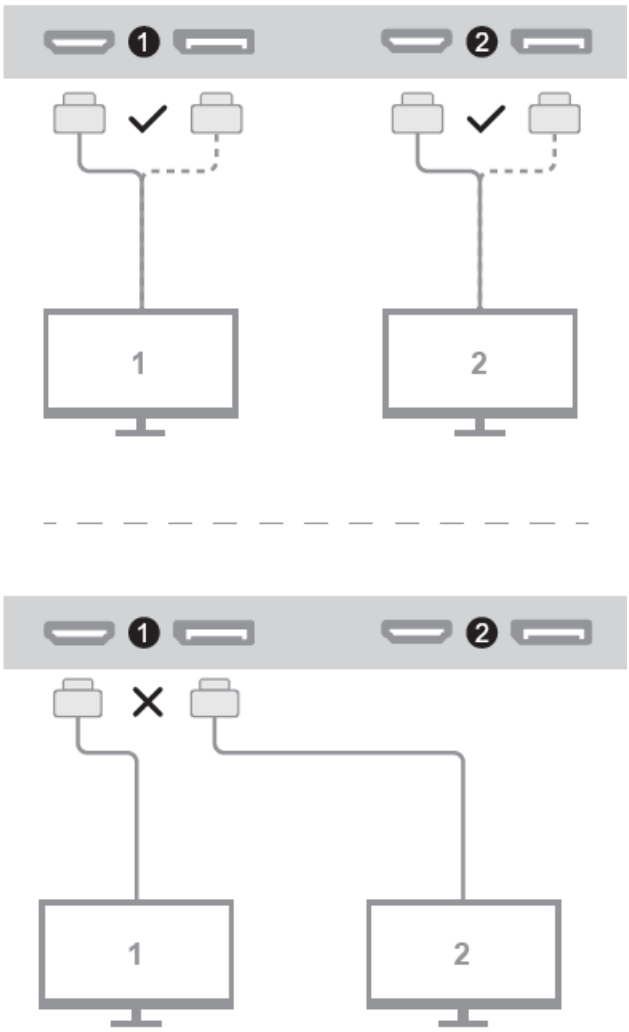
FAQ

Frequently Asked Questions

- **Q:** Can I connect this docking station to a Mac computer?
  - **A:** This docking station is designed for use with Windows 10/11, ChromeOS R51+, and may not be compatible with Mac computers.
- **Q:** Is it possible to connect more than two monitors using this docking station?
  - **A:** This docking station supports connection to two monitors only, one in zone 1 and another in zone 2.
- **Q:** What should I do if the driver installation does not start automatically?
  - **A:** If the driver installation does not start automatically, please visit www.cudy.com/cs and follow the manual installation instructions provided.

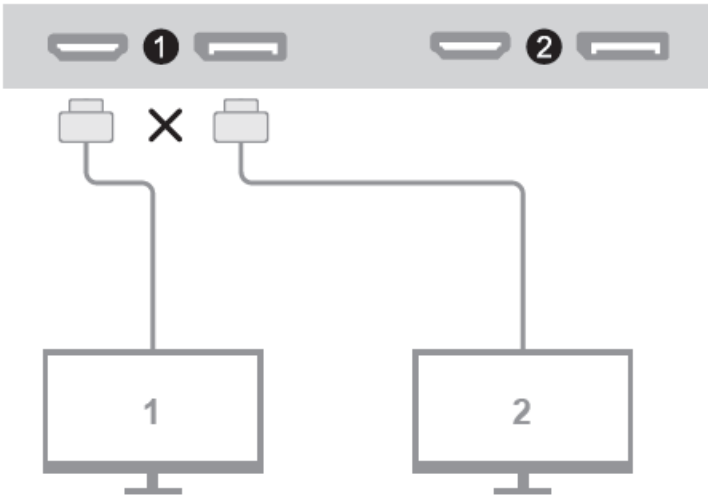
Power And Connections

Connect Monitors



- When connecting two monitors, plug one cable in zone 1 and another in zone 2.

Power on and Connect Your Host Device



- Please use the PC port on the back of the docking station and the host's port that accepts PD charging.

Download The Driver

- Visit **www.cudy.com/cs**, and follow the pictures to download the driver.
- Users of Windows 10/11 or ChromeOS R51+ may skip step 3 and 4, as the installation will complete automatically when the system is connected to the Internet.
