cudy LT 700E Cat 6 AC1200 WiFi Router

Specifications

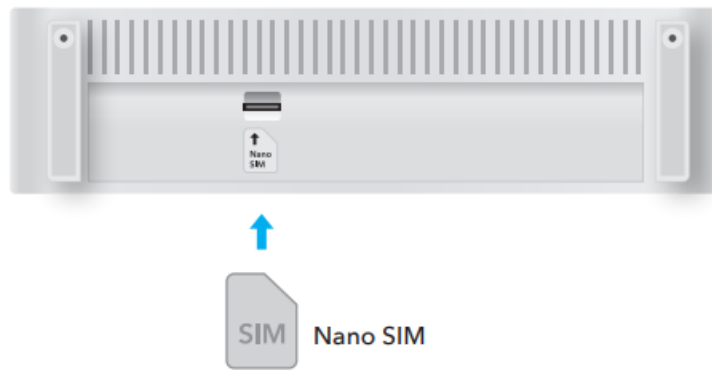

- **Model:** LT400E
- **Network:** 4G LTE
- **Wi-Fi:** Dual-band (2.4GHz and 5GHz)
- **SIM Card Type:** Nano SIM
- **LED Indicators:** Power, Network Connection
- **Power Input:** DC

FAQ

- **Q:** What should I do if my 4G connection is not working?
- **A:** Make sure you have entered the correct APN parameters. If further assistance is needed, contact your Internet provider.
- **Q:** How can I improve cellular signal strength?
- **A:** Place the 4G router near windows for better signal reception.

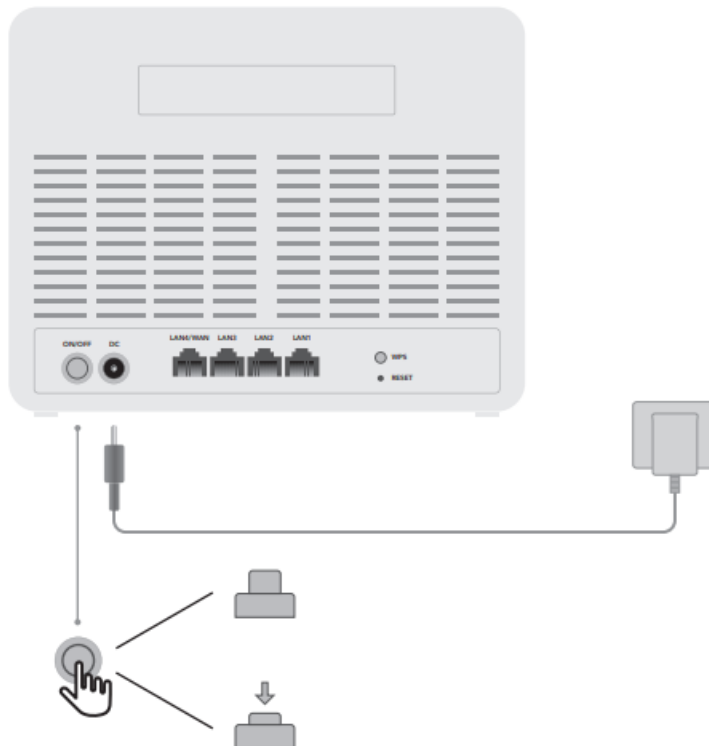

Insert your SIM card

Align your nano SIM card with the SIM icon on the bottom side, and insert the card into the SIM slot until you hear a clicking sound.

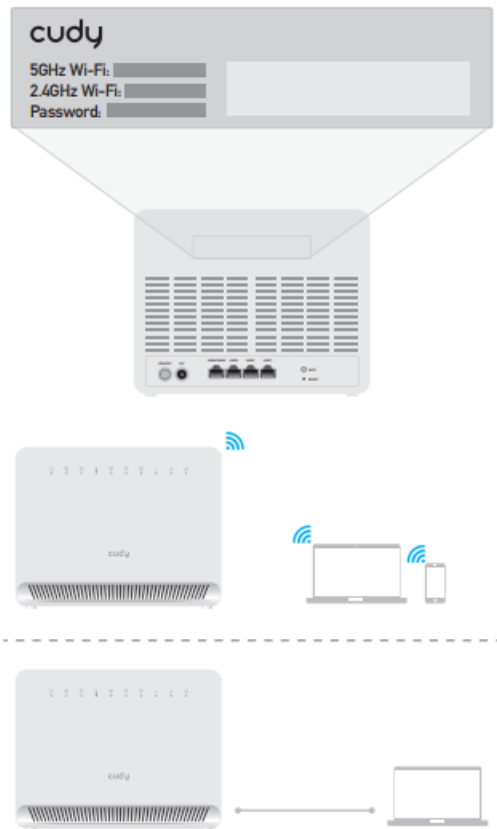

Power the device

Connect the power adapter and press the power button to turn on the router. Wait 2 minutes for it to start.

Connect the network

Check the  LED

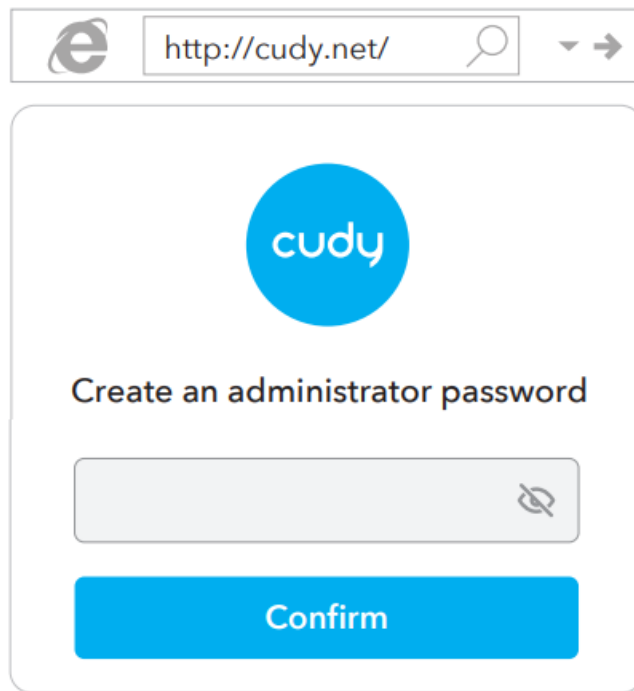

-  When the  LED turns solid, the router is connected to the cellular network.
-  If the LED  is off, please continue to configure the router.

Note:

For some ISPs' SIM cards (such as Verizon), it may take longer to connect to the Internet. Please kindly wait another 2~5 minutes

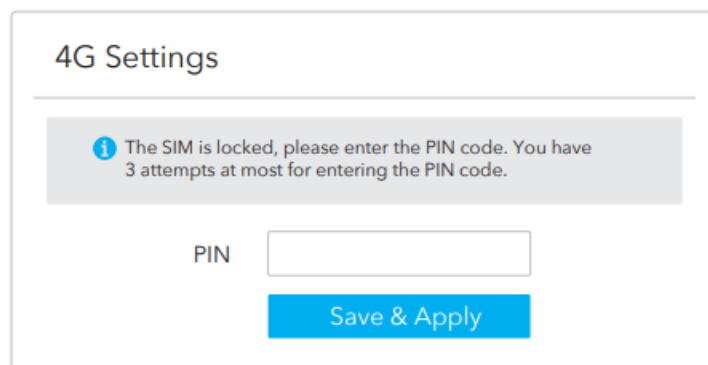

Enter configuration page

Launch a web browser on the connected devices (phone/laptop/tablet) and enter <http://cudy.net/> (or <http://192.168.10.1/>) in the address bar. Create a password to log in.

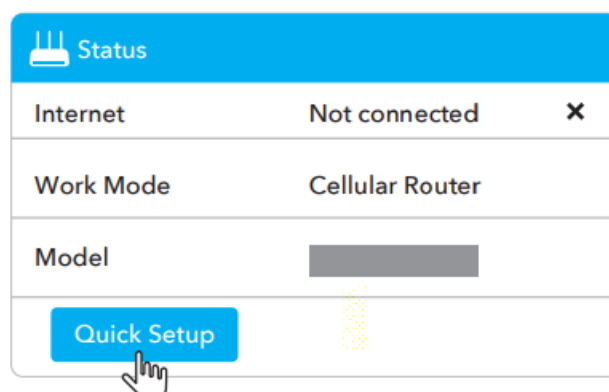

Input PIN if needed

If this message pops up, please enter your PIN and click “Save & Apply”, or contact your cellular provider for help

Follow the system instruction

If 4G is not connected, or if you want to customize the router yourself, click “Quick Setup” and follow the step-by-step instructions to configure the router

Status		
Internet	Not connected	✕

Quick Setup		

Note

1. If you are not sure about APN parameters, please contact your Internet provider.
2. If you encounter any other problems, don't hesitate to contact our technical support team: at support@cudy.com

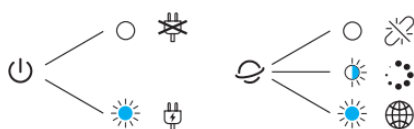

Enjoy the Internet!

If the cellular signal strength is weak, try placing the 4G router near windows and check again.
