cudy LT18 WiFi 6 4G Cat18 Router

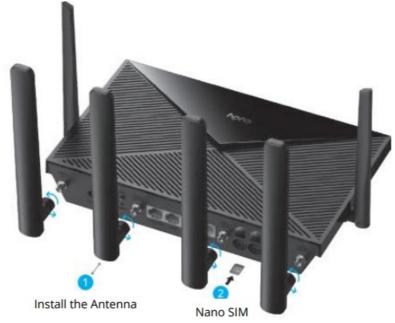

Dear customer,

Thank you for purchasing our product. Please read the following instructions carefully before first use and keep this user manual for future reference. Pay particular attention to the safety instructions. If you have any questions or comments about the device, please contact the customer line.

- www.alza.co.uk/kontakt
- +44 (0)203 514 4411
- Importer Alza.cz a.s., Jankovcova 1522/53, Holešovice, 170 00 Praha 7, www.alza.cz

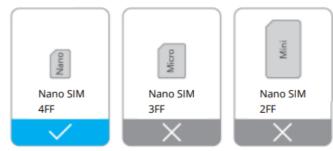

Install the SIM Card and Battery

1. Install the cellular antennas

2. Insert the Nano SIM card into the SIM1 slot until you hear a click.

SIM card requirement

Direction: With the gold contacts facing down, gently slide the SIM card into the slot.

Note: If both SIM1 and SIM2 card slots are inserted with SIM cards, the router will automatically choose which SIM card to use. Since this automatic selection mechanism is time-consuming, it is strongly recommended that only one card is inserted for the first use.

3. Connect the power adapter to the router.

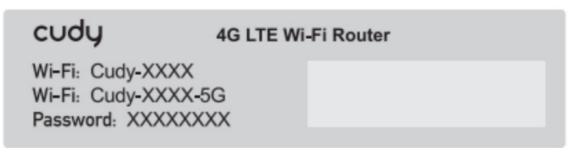

- 4. Turn on the router. Waiting 2-5 minutes for it to start.
- 5. Check the status of the C LED
 - If the P LED turns to solid blue, means connect to cellular network and signal is strong.

- If the LED turns to solid purple, means connect to cellular network and signal is average.
- If the LED turns to solid red, please follow the instructions of **Customize the 4G Router**.

 Note: For some ISPs a SIM card (such as version), it may take longer to connect to the internet. Please kindly wait another 2-5 minutes.

Customize The 4G Router

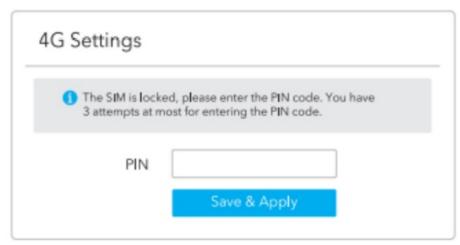

1. Connect the router via ethernet cable or Wi-Fi. Network name and password is printed on the bottom of the router.

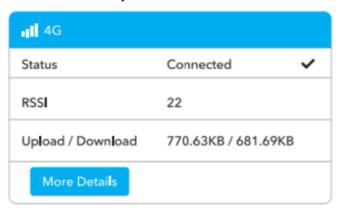

2. Launch a web browser and enter http://cudy.net/ (or http://cu

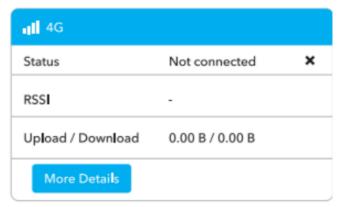

3. Below page would pop up if your SIM card needs PIN to unlock. Please enter your PIN and click Save & Apply, then wait 15 seconds to connect to the internet.

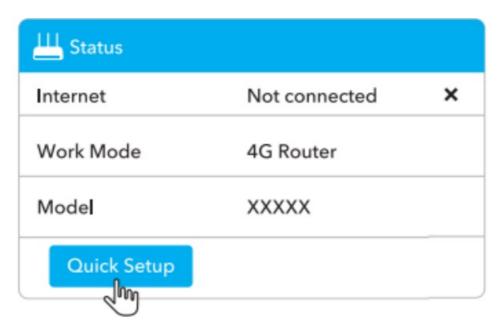

4. Then please check 4G information card of the status page. If the status is connected, means connected to the internet successfully.

Connected Not connected

5. If 4G is not connected, or if you want to customize the router yourself, click "Quick Setup" and follow the stepby-step instructions to configure the router.

Note:

- 1. If you are not sure about APN parameters, please contact your internet provider.
- 2. If you meet any other problems don't hesitate to contact our technical support team: support@cudy.com
- Frequently Asked Questions: Find answers on https://www.cudy.com/faqEnjoy the internet!
