cudy LT400E Wi-Fi Router

Specifications

- **Model:** 810600256
- **SIM Type:** Nano SIM
- **Languages:** English, Italiano, Deutsch, Eesti, Norsk, Svenska, Ting Vit, Cestina, Suomi

Product Usage Instructions

Insert Your SIM Card

- Align your nano SIM card with the SIM icon on the bottom side, and insert the card into the SIM slot until you hear a clicking sound.

Power the Device

- Connect the power adapter and press the power button to turn on the router. Could you wait 2 minutes for it to start?

Connect to the Network

- Connect your devices to the router via Wi-Fi or an Ethernet cable. The Wi-Fi name and password are printed on the back of the router.

FAQ

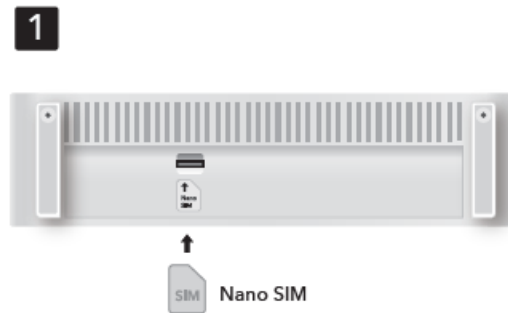

- **Q:** Where can I find the Wi-Fi name and password?
- **A:** The Wi-Fi name and password are printed on the back of the router.
- **Q:** How do I know if my SIM card is inserted correctly?
- **A:** Align your nano SIM card with the SIM icon on the bottom side and insert it into the SIM slot until you hear a

clicking sound.

- **Q:** How long should I wait for the router to start after powering it on?
- **A:** Wait approximately 2 minutes for the router to start after pressing the power button.

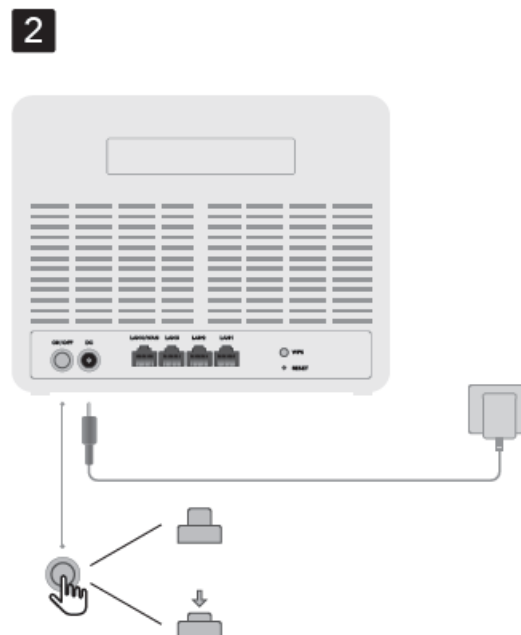

Insert your SIM card

- Align your nano SIM card with the SIM icon on the bottom side, and Insert the card into the SIM slot until you hear a clicking sound.

Power the device

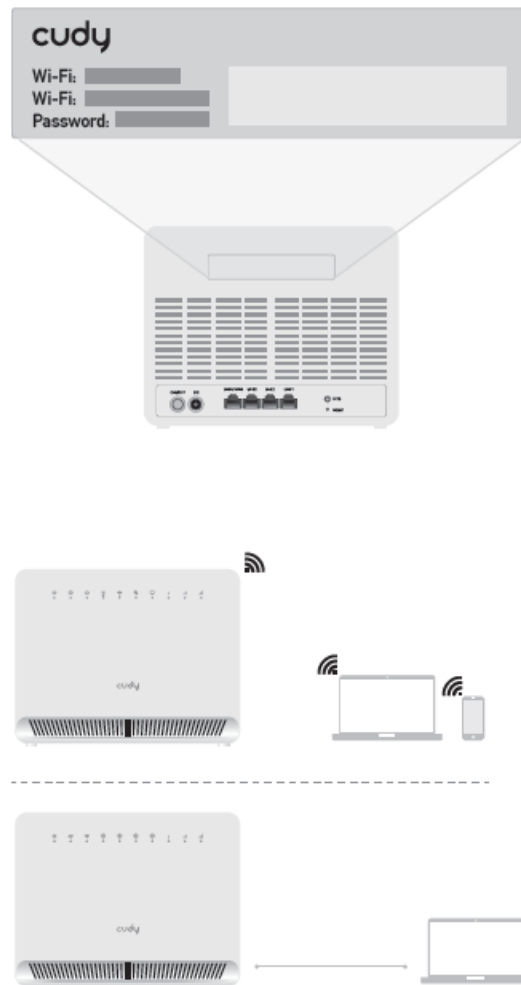

- Connect the power adapter and press the power button to turn on the router. Please wait 2 minutes for it to start.

Connect the network

- Connect your devices to the router via Wi-Fi or an Ethernet cable. The Wi-Fi name and password is printed on the back of the router.
- Flip the page to continue...

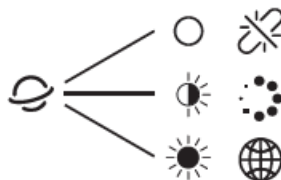

3

Check the  LED

- When the  LED turns solid, the router is connected to the cellular network.

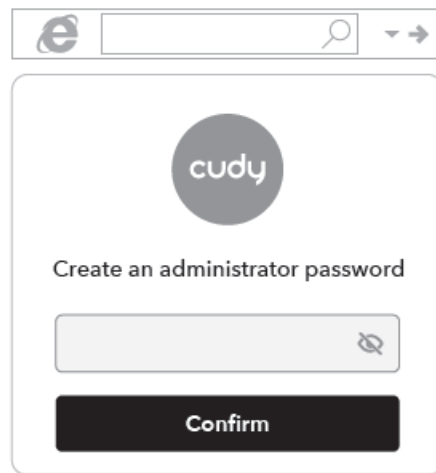

4

Enter configuration page

- Launch a web browser on the connected devices (phone/laptop/tablet) and enter <http://cudy.net/> (or <http://192.168.10.1/>) in the address bar. Create a password to log in.

5

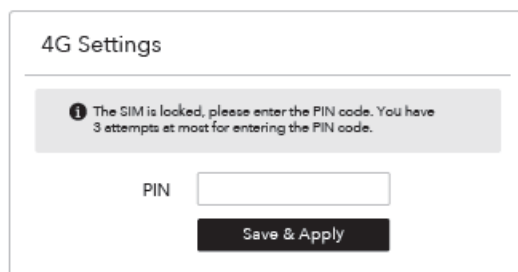

The screenshot shows a web browser window with the Cudy logo at the top. Below the logo, the text 'Create an administrator password' is displayed. There is a password input field with a toggle icon (an eye with a slash) to its right. Below the input field is a dark button labeled 'Confirm'.

Input PIN if needed

- If this message pops up, please enter your PIN and click “Save & Apply”, or contact your cellular provider for help.

6

The screenshot shows a settings window titled '4G Settings'. Below the title is a message box with an information icon and the text: 'The SIM is locked, please enter the PIN code. You have 3 attempts at most for entering the PIN code.' Below this message, the label 'PIN' is followed by a text input field. At the bottom of the window is a dark button labeled 'Save & Apply'.

Follow the system instruction

- If 4G is not connected, or if you want to customize the router yourself, click “Quick Setup” and follow the step-by-step instructions to configure the router.
-  Enjoy the internet.
