Insert your SIM card

Align your nano SIM card with the SIM icon on the bottom side, and Insert the card into the SIM slot until you hear a clicking sound.

Power the device

Connect the power adapter and press the power button to turn on the router. Wait 2 minutes for it to start.

Connect the network

Connect your devices to the router via Wi-Fi or an Ethernet cable. The Wi-Fi name and password is printed on the back of the router.

Check the LED

-  When the  LED turns solid, the router is connected to the cellular network.
-  If the  LED is off, please continue to configure the router.

Note:

For some ISP's SIM card (such as Verizon), it may take longer to connect to the Internet. Please kindly wait another 2~5 minutes.

Enter configuration page

Launch a web browser on the connected devices (phone/laptop/tablet) and enter <http://cudy.net/> (or <http://192.168.10.1/>) in the address bar, and use the default password admin to log in.

Auto

Password

Log In

Input PIN if needed

If this message pops up, please enter your PIN and click “Save & Apply”, or contact your cellular provider for help

4G Settings

 The SIM is locked, please enter the PIN code. You have 3 attempts at most for entering the PIN code.

PIN

Save & Apply

Follow the system instruction

If 4G is not connected, or if you want to customize the router yourself, click “Quick Setup” and follow the step-by-step instructions to configure the router.

 Status

Internet	Not connected	✕
Work Mode	4G Router	
Model	XXXXXX	
<div>Quick Setup</div> 		

Note

1. If you are not sure about APN parameters, please contact your internet provider.
2. If you meet any other problems, don't hesitate to contact our technical support team: support@cudy.com

 **Enjoy the internet!**

Flip the page to connect telephone and more

Connect your telephone if needed

Use an RJ11 cable to plug it into the RJ11 port on the 4G Voice Router and the telephone.
Typically, the RJ11 cable comes with the phone.

LED

If the cellular signal strength is weak, try placing the 4G router near windows and check again.

If the cellular signal is weak everywhere indoors, try installing extension 4G antennas (which are not included in the box) into the SMA connectors on the back of the router and placing the antennas outdoors.

EU Declaration of Conformity

Cudy hereby declares that the device is in compliance with the essential requirements and other relevant provisions of directive 2014/53/EU, directive 2011/65/EU, directive (EU) 2015/863.
The original EU declaration of conformity can be found at <http://www.cudy.com/ce>.
