cudy PE25 2.5 Gbps PCI-E Ethernet Adapter

Product Information

Specifications:

- Model: PE25
- Interface: PCI Express
- Connectivity: Ethernet
- Manufacturer: Cudy

Product Usage Instructions

Installation:

1. Unplug the power cable and remove the case panel.
2. Insert the adapter into an available PCI-E slot and secure it with the provided screw.
3. Assemble the case panel and power on your computer.
4. Plug the Ethernet cable and connect it to your router or switch.

Network Connection:

Check if the computer is connected to the network. If yes, you can enjoy the Internet directly. If not, follow these steps:

1. Download and install the driver by scanning the QR code or visiting **https://www.cudy.com/pe25**

Troubleshooting:

If the adapter is not detected, follow these steps:

1. Check the insertion of the adapter.
2. Try inserting the adapter into another PCI-E slot.
3. Contact **support@cudy.com** for further assistance.

FAQ

Q: What should I do if the adapter is not detected?

**A:** If the adapter is not detected, follow these steps:

1. Check the insertion of the adapter.
2. Try inserting the adapter into another PCI-E slot.
3. Contact **support@cudy.com** for further assistance.

**Q: How do I connect to the network after installation?**

A: After installation, plug in the Ethernet cable and connect it to your router or switch. Ensure your computer is connected to the network to access the Internet.
Installation Instruction

1. Unplug power cable and remove case panel.

2. Insert the adapter into an available PCI-E slot and secure it with the provided screw

3. Assemble the case panel and power on your computer

4. Plug the ethernet cable and connect to your router or switch.

5. Check if the computer is connected to the network.
   - If yes, enjoy the Internet directly;
   - If not, download and install the driver by scanning the QR code or enter h **ttps://www.cudy.com/pe25** in your browser

Note:

If the adapter is not detected:

1. Check the insertion.
2. Try another slot.

FCC Statement

FCC compliance information statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. Thisequipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However,there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.
