WARNING!
This is a category C2 UPS product. In a residential environment, this product may cause radio interference, in which case the user may be required to take additional measures.

CAUTION!
Servicing of batteries should be performed or supervised by personnel knowledgeable of batteries and the required precautions. Keep unauthorized personnel away from batteries.

UNPACKING

PowerPanel® Personal Edition software is available on our website. Please visit **www.cyberpower.com** and go to the Software Section for free download.
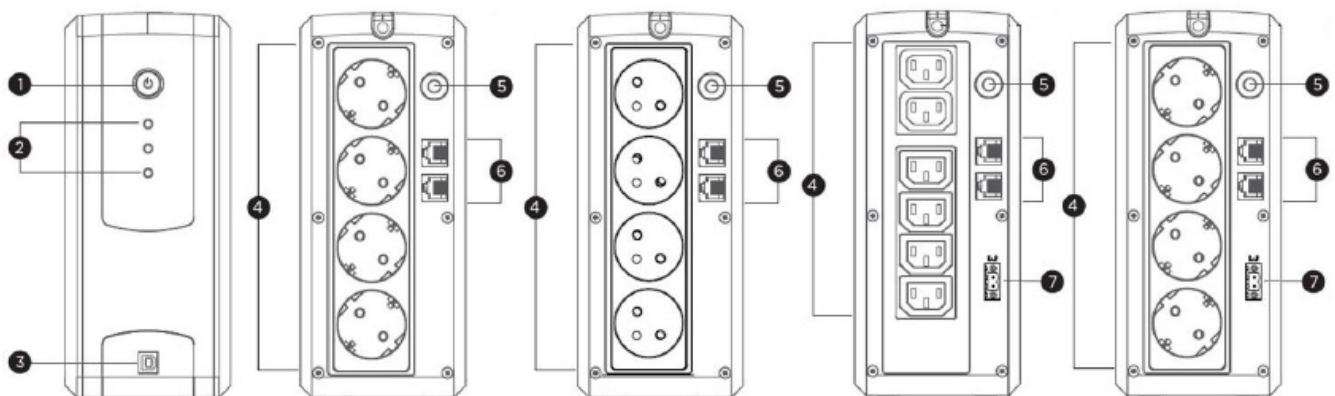

INSTALLATION

Recharging the battery for at least 8 hours is recommended to ensure that the battery's maximum charge capacity is achieved. If you will use the software, connect the USB cable to the USB port on the UPS. To protect fax, telephone, modem line or network cable, connect a telephone cable or network cable from the wall jack outlet to the IN jack of the UPS. Then connect a telephone cable or network cable from the OUT jack on the UPS to the modem, computer, telephone, fax machine, or network device
